

Faculty of Education and Communities

The issues you raise via student reps, module feedback and student surveys are used to make decisions at every level of the University. We want to let you know what happens with your ideas and comments and update you on the work we're doing to improve your student experience.

It's Done

- Computers in the Psychology lab – all updated.
- Extra study skills section for May have been distributed – referencing, research methods, writing and critical writing workshops.
- Extra support for research methods: recorded – all statistical tests are now available on moodle via office mix.
- Exam timetables – spread out exam dates: Registry now asks for Programme Director input when drafting the timetable.
- Assignments are appropriately spread out to ease pressure on students: 2 per month (i.e. 2 in November, 2 in December and 2 in January)

We're Working On It

- Not enough computers in D003 – the chair will speak with the IT/operations department
- Waiting for confirmation from the BPS regarding the accreditation for the BSc Applied Psychology course.
- Seek advice from the Halliwell on the introduction of hot water dispensers around the campus.

We Can't Solve This Right Now

Printer for Psychology lab - the university IT department no longer issues individual printers for staff or students.
