Comments:

Very well researched topic & related areas. Student demonstrates a good understanding of various algorithms ~~the~~ required for raytracing.

Code examples demo'd for basic ray-casting along with analysis of initial results achieved - Good/though basic. Future iterations considered to improve system.

Some areas of understanding appear sketchy during Q&A. Presentation started really well with good structure, however ~~the~~ structure of presentation pointed-out towards the end - with a little detail of future work/direction.

Generally a v. good effort made.
