Assignment 2 - essay
KRR.

First marker - RH RH 6/1/21.

64.

This is a well structured essay that displays a very good grasp of the essay question & which draws on a wide range of reading material - material that is well referenced throughout. Your analysis is written in a fluid & clear manner, and you raise some interesting points, setting your analysis within the historical context. With regards to the latter, this part of the essay tends to be overly descriptive & perhaps you could have used some of this space to, instead, present counter-claims & counter-analyses in both depth. But, that said, this is a very good piece of work. It is enjoyable to read to.
