Student's Name	CHARLES MICHAEL
Student's SurName	WILKINS
Student's Email	2104032@student.uwtsd.ac.uk
Module Name	ACCB5029
Marked By	Nitheesh Murugan Kaliyamurthy

Engagement with Literature Skills	0
Feedback	Marks
	0

Knowledge and Understanding Skills	15
Feedback	Mark
To score high marks in this section you need to address, team formation, selection process for the scrum leader and other relevant roles, provide details about the GIT repository, and reflect on individual knowledge and understanding of the project. Well done. Team formation and roles allocated appropriately. GIT Repo link shared and accessible. However, the GitHub repo only had a py file. More clarity on each members role could have added value. More description on your individual contribution reflecting the knowledge and understanding gained could have added value to the work.	12.3

Cognitive and Intellectual Skills	15
Feedback	Mark
To score high marks in this section, justify your project selection with clear objectives, provide evidence of project planning, cover future enhancement plans, and include individual reflections on troubleshooting skills and active involvement in finding solutions to problems. Objective well set. However, discussions on whether all the objectives are met after completing needs more clarity. Project planning covered. However, more details such as Gantt Chart could have added more value. Future enhancement addressed well. More detailed discussion on the individual contribution required.	9.5

Practical Application Skills	45
Feedback	Mark
To score high marks in this section, include evidence of design, source code, access to GitHub, implementation details, testing methods, successful execution of the application, and provide individual reflections on version control systems, supported by screenshots as evidence. Design, source code and implementation done. However, more adequate details required about testing the application. Could have implemented best coding practices. (Comments/ Description within the code etc) Your role is Code analyser. Didn't you find it difficult to read the codes without comments? Did you recommend you team to add comments on the code?	29.7

Transferable Skills for Life and Professional Practice	25
Feedback	Mark
To score high marks in this section, demonstrate a creative approach, showcase effective teamwork, provide evidence of collaborative problem evaluation, include individual reflections on lessons learned from working as a group, and ensure that the report is complete, of high quality, well-presented, and organized with a logical flow of ideas. Teamwork documented. Could have improved the collaborative approach in evaluating the problem.	18.2

Overall, the team focused only on Implementation and research. Could have focused on Testing, version control etc. Common work done by the group need to be documented in the report by all team members. Doing a SWOT analysis is a good approach. Why didn't you recommend this approach to all your team members?	10.2
Overall Mark	70
