

DIGITAL SAFETY AWARENESS

STEPHEN ADEKUNLE ADENEKAN
ADUNNI. ID: 2325452.
28/03/2024 CertHE Business
Skills for the workplace.

Digital Safety awareness is to protect against unsuspecting users from internet **FRAUD, PHISHING, PHONE SCAMMERS** and other illegal online activities. According to an article published in International Journal Of Scientific Advances, it is considered as a measure of staying safe online and been protected against unpleasant exposure or materials that has the ability to harm or destroy one's computer (Sadiku et al. 2021).
