Swansea Beach

We are so lucky that Wales has so many beautiful areas and over 100 beaches!

Today I decided to explore one of those beaches by myself and with my family!

Exploring together

Lets go exploring!

We made super cool binoculars to explore and help us see!

Being creative Making shell prints

We started to collect lots of shells and noticed all the different patterns on them! So, we did some shell printing using playdoh!

Using sticks to practice our writing!

Lots of digging and making sandcastles!

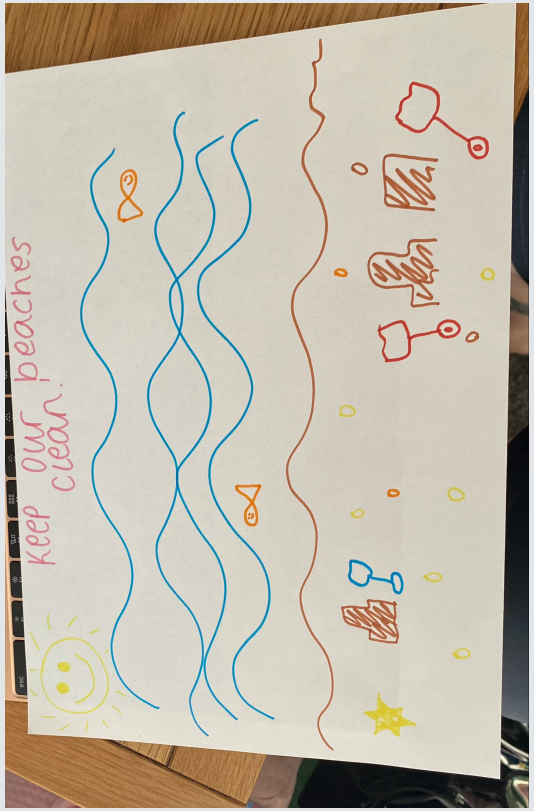

Exploring washed up wood!

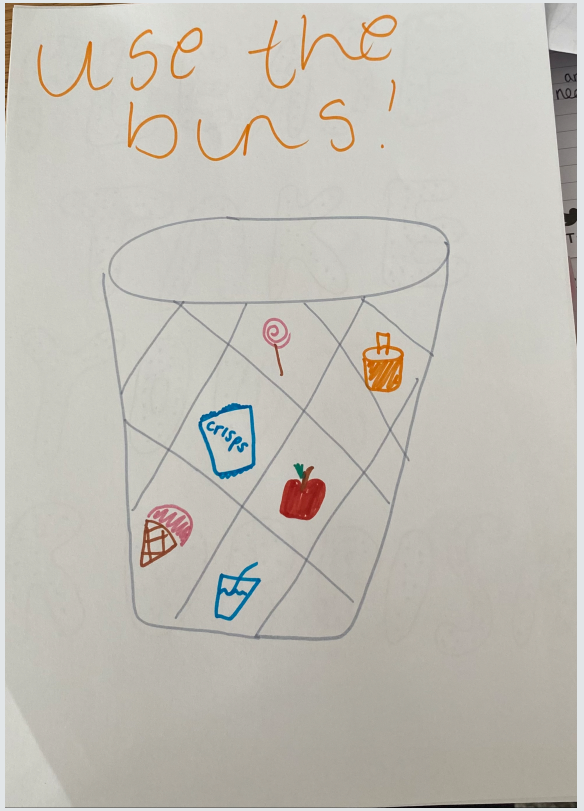

Beach bugs!

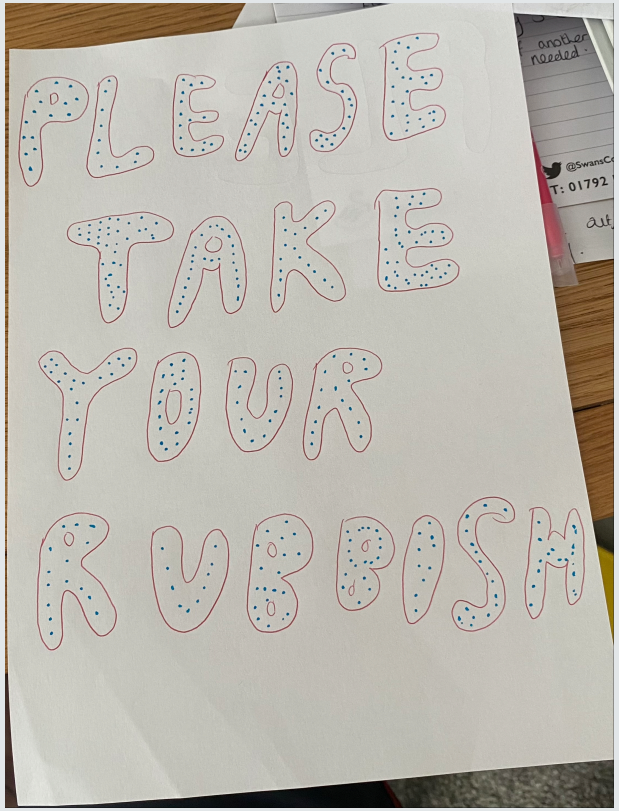

While exploring these pieces of wood we saw lots of little bugs!

One we found looked a lot like a beetle but we found out it was a dung beetle!

Conserve..

keep our beaches clean!

use the bins!
