

DS -My Digital Life

David Opadiran

Photographs from my digital life

- Please add 4–6 screenshots or photos of your digital life.
- You can use your phone or laptop.
- For each screenshot, write one or two sentences explaining what it shows.

Screenshot/Photo 1

This digital tool is called a laptop, I use this to construct and edit assignments and as an aid to enhance my learning experience and submit documents, access my emails and other important applications such as word and excel. I feel good at using this digital tool and its features and feel it helps me accurately design and help keep my digital skills active as I need to type using the keyboards and navigate different internet and application tabs within the software. I wouldn't improve anything with this digital tool. These skills matter to me as most aspects of daily interactivity involves a laptop and the features of the laptop such as passing Digital skills assignments.

Screenshot/Photo 2

This digital tool is an interactive application called bbc iplayer, (Radio 1extra) which is an online service that provides me services to listen to DAB Radio, I have highlighted key information about what I was listening to, the duration of the show, and finally the presenter who is online providing the radio service. I feel this is a useful digital tool for me as the interactive bbc iplayer app allows me to receive information and provides me entertainment with music while I work or travel and news for information about weather, travel, breaking news updates and current affairs. I feel happy I can easily navigate the menu of other shows and features such as a timer to put the application on snooze after a particular time.

I would like to improve the applications compatibility to continue to work even if I travel out of the UK.

These skills matter to me as I prefer to be up to date with current affairs and to be kept entertained whilst travelling of working.

Screenshot/Photo 3

This digital tool is called an oyster card i use it to travel around London for appointments and to and from university classes daily and weekly

The significance of this oyster is very important as without it i cannot travel around London to get to places.

I can use this tool as well as using my bank card to travel around London and TFL charge either my card or my oyster card

I would like to improve this digital tool by lowering the price it costs.

Screenshot/Photo 4

This digital tool is called Youtube and the Presenter/show is called Bouncer'24hrs', he is a Uk Music and culture mogul who presents this daily youtube channel to give subscribers and viewers a breakdown and deep dive into current affairs and news stories he finds relevant.

I subscribe to watching and listening to Bouncers youtube page as he breaks down news and stories in a unique way i can understand and relate to.

I would make changes to this digital tool in shortening the lengths of some news stories and clips to a maximum of 7 to 12mins as some clips last longer than 15 mins and i notice i lose focus if the clips are this long in length.

I do listen and watch out for any relevant stories in current affairs and see if bouncer talks about the same issues as i like to hear he's take on things happening.

Screenshot/Photo 5

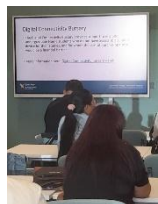

This Digital tool is also youtube and the content is Football related in particular to a team i am passionate about Manchester United, this clip talks about one of the clubs legendary players called Wayne Rooney and highlights he's accomplishment with other past professionals speaking about how good Wayne Rooney was at hes peak at the club.

I use this digital skill to stay entertained and informed about my football teams news and latest videos as a subscriber

I usually use this digital skill over the weekend or Wednesday or Thursday night champions league as this is when the football team usually play and the highlights of the matches are shown on the youtube app

Screenshot/Photo 6

This digital tool is called a digital whiteboard and is used in my lectures at University to give us, the students, a chance to see presentations set by the Lecturer to help us demonstrate information and see visuals that we can use as a step by step guide in our studies. It is very big, clear to view and interactive as it is touch screen and mirrors exactly what the lecturer is navigating on he's laptop or computer

I would make changes to this digital tool by having the digital whiteboard to be able to rotate and move around so every student in the lecture room can see the information on the screen easily.

My Short Reflection

- Write 5–8 simple sentences about your digital life.
- You can use the sentence starters below if helpful.

I use digital skills to help manage my travel, help keep me entertained and informed in all aspects when i use these tools.

I feel confident when i use this tools efficiently without need to ask for help or assistance.

I want to improve the effectiveness and time spent with some of my digital tools such as youtube, by spending more times on user analytics and managing my subscriptions better.

I often use these tools daily as part of my daily routine.

I sometimes feel nervous about using these tools with when it comes to commenting on clips or videos, as i feel my opinion/views may be scrutinized

I hope this module will help me to learn aspects of digital tools i didnt know before starting the module

Digital tools are important for me because most aspects of life nowadays is digital and i feel it is important to learn and be proficient using various digital tools

Sentence starters

- I use digital tools to ...
- I feel confident when I ...
- I want to improve ...
- I often use these tools: ...
- I sometimes feel nervous about ...
- I hope this module will help me ...
- Digital skills are important for me because ...

You can write more if you want.

Submission Checklist

Before you submit, please check:

- ☐ I added 4–6 screenshots
- ☐ I wrote short sentences for each screenshot
- ☐ I wrote my short reflection
- ☐ My work is my own
- ☐ My file opens correctly
- ☐ My file opens correctly
