

THE IMPOSSIBILIST

Who are we?

We are an organisation of Socialist thinkers that stand united under the belief that **freedom of the proletariat can never be achieved under the iron chains of Capitalism.** We are opposed to Capitalism in all forms, We reject all reform under the Capitalist system, as these reforms end up only repairing the, long broken, machine of Capitalism

Our beliefs are rooted in the writings and ideas of thinkers such as Karl Marx and Friedrich Engels, who demonstrated that **capitalism is inherently exploitative** and that it creates the very conditions that will lead to its own undoing. We also find common cause with other revolutionaries who reject reformism, such as William Morris and Karl Kautsky, who argue for a principled, uncompromising commitment to socialism.

What do we want?

Our goal is not to improve or regulate capitalism, but to **replace it with a society where production is organized for the common good**, free from exploitation and profit. We work to inspire fellow workers not with promises of gradual improvement but with the vision of a fundamentally different world, **a world without masters or servants**, where all contribute according to their abilities and receive according to their needs.

In this spirit, we seek **not reform but revolution**, a global movement of the proletariat to end capitalism once and for all. We are the voice of the future, calling for nothing short of a **social revolution.**

How can you help?

To abolish capitalism, we need the strength and solidarity of the proletariat. Here's how you can support the cause and help build a movement for real, revolutionary change:

- Educate yourself and fellow workers:**
 Read and debate Socialist literature with your fellow workers. Understand that Capitalism can not be reformed and must be replaced
- Reject false promises:**
 Politicians may try to offer gradual changes through capitalism, learn to reject these and ensure others are not fooled by them
- Organise:**
 If there is not already a union at your workplace, organise the creation of one with your fellow workers. It is only if we are united that we can create change
- Attend Lectures and Protests:**
 Attend and support local and international socialist movements by attending marches and public protests. You can find the locations and dates for several lectures and protests on the following page
