

MARKING CRITERIA AND STUDENT FEEDBACK				
MODULE: Research Methods and Project				
ASSIGNMENT: Viva				
STUDENT: Davis Watkins				
DATE:				
This section details the assessment criteria. The extent to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.				
Common Assessment Criteria Applied			Marks available	Marks awarded
1. Understanding and Analysis: Defence of work through technical questioning				
50-59%: Knowledge is accurate with a good understanding of the field of study. I feel you answered question 1, 3 & 4 quite well. I would have liked to see more discussion on the renewable electricity generation and less on the fuel celled vehicles. Your response to question 3 was good and 4 illustrated that you understood the implications, shame you didn't mention this in your dissertation more. With Question 2 I think you've missed my point, to refrigerate hydrogen, takes a lot of energy and so making it carbon neutral will be a challenge that needs addressing going forward.			90	45
2. Transferable Skills for Life and Professional Practice (Summary Poster)				
Attributes in professional practice: individual and collaborative working; deployment of appropriate media; presentation and organisation. 60-69%: Can communicate well, confidently and consistently in a suitable format. Work is coherent and fluent and is well structured and organised. I think generally, that you have summarised your report well, lacking a little on your survey, the poster itself could look more professional, justifying the columns both sides, numbering your chapters.			10	6
Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)			Late Submission Penalties (tick if appropriate)
