

MARKING CRITERIA AND STUDENT FEEDBACK					
MODULE: Research Methods and Project					
ASSIGNMENT: Viva					
STUDENT: Toby Marshall					
DATE:					
This section details the assessment criteria. The extent to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.					
Common Assessment Criteria Applied			Marks available	Marks awarded	
1. Understanding and Analysis: Defence of work through technical questioning					
50-59%: Knowledge is accurate with a good understanding of the field of study.			90	52.2	
Your responses help to explain some of the areas in more detail and clear up some confusion / missing information from the report. It would have been good to have some more sources included to support the statements being made. Some answers give a partial explanation but there are still some areas that lack deeper understanding.					
2. Transferable Skills for Life and Professional Practice (Summary Poster)					
Attributes in professional practice: individual and collaborative working; deployment of appropriate media; presentation and organisation.					
50-59%: Can communicate effectively in a suitable format, but may have minor errors. Mostly coherent work and is in a suitable structure.			10	5.5	
When using boxes on a poster, it is important that the information stays within the boxes to help the poster maintain its professional appearance. The technical language used could have been improved and this would have helped make the text more concise. The poster needed to be proof read as some of your graphs are covering text. Generally the poster is reasonable and gives a good overview of the project.					
Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)		Late Submission Penalties (tick if appropriate)		57.7	%
		Up to one-week late			
		Over one week late
