

MARKING CRITERIA AND STUDENT FEEDBACK				
MODULE: Research Methods and Project				
ASSIGNMENT: Viva				
STUDENT: Yousouf Boukra				
DATE:				
This section details the assessment criteria. The extent to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.				
Common Assessment Criteria Applied			Marks available	Marks awarded
1. Understanding and Analysis: Defence of work through technical questioning				
80-100%: Highly detailed knowledge and understanding of the main theories/concepts, and a critical awareness of the ambiguities and limitations of knowledge. You provided a comprehensive insight into your project and you showed an unwavering understanding of the complexities and issue surrounding your chosen subject matter. Your statements were also supported by cited evidence throughout. Excellent responses demonstrating a good understanding of your project and the topic. Well supported through appropriate research. Shame you did not develop the port and bowl shape together as you identify the piston bowl as critical to the charge movement.			90	72
2. Transferable Skills for Life and Professional Practice (Summary Poster)				
Attributes in professional practice: individual and collaborative working; deployment of appropriate media; presentation and organisation.				
80-100%: Can communicate with an exceptionally high level of professionalism. Work is exceptionally coherent, very fluent and is presented professionally. Your poster provided a true reflection of your project illustrating you clear aims, well defined methodology followed by the complexity of your results and a concise conclusion. Excellent summary of the project and findings. Well-presented images clearly support the poster conveying the project methods and results. Excellent poster Yousouf.			10	9
