

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
General Comments		
Although comments made are valid, you have not embraced the essence of this report - have you become a better student who is ready for a career in computing ?. Just remember, you should have a considerable amount of supporting evidence to support what you are saying - or is this case of starting the coursework so late - generating evidence will be problematic ?	100	26
1. Engagement with Literature Skills		
Although you have some references here - learn to cite them (covered in lectures). So what about the reading log to support your comments	20	6
2. Knowledge and Understanding Skills		
Simple message - read the coursework brief carefully, from which you should have been able to understand why it's important to be prepared to demonstrate skills learned on this module and more importantly, the skills will help you progress to L5 study	20	0
3. Cognitive and Intellectual Skills		
Action plan would have been useful, but self observations are valid (good discussion), again where is the supporting evidence ?	20	7
4. Practical Application Skills		
Start with the theme of this report - have I become a better student - answer "No". The purpose of this report is the help you prepare for a HE level course and not an extension of L3 study. So did you read the coursework brief carefully enough to make valid notes on what needs to be carried out for this report (covered this in lectures) - or was there too much to do in such a short space of time. Also, you have a done a presentation - but not reviewed/commented upon or attached the presentation ??	30	8
5. Transferable Skills for Life and Professional Practice		
Generally, structure is fine, but you need to learn how to present a report that is suitable for HE level study - which was covered in lectures. Going forward to L5, not presenting work to the required standard will lose you marks	20	5

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)

Late Submission Penalties (tick if appropriate)

Up to four weeks late
