

Moodle App (For Android)

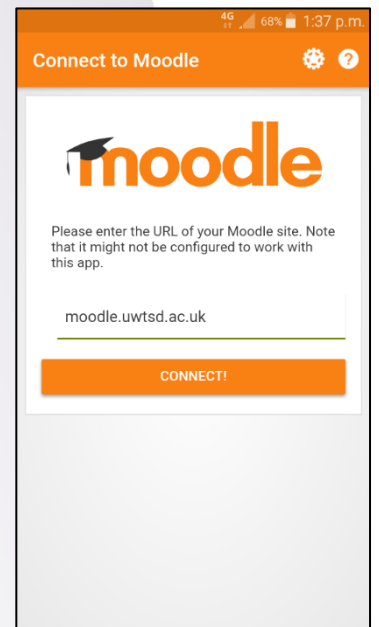

App: An application or program on a mobile device for accessing a particular tool, in this case the Moodle learning delivery system.

Step 1: On your device search Play Store for Moodle
You are looking for the Moodle logo and "Moodle Pty Ltd"
Click or Tap "Install"
(shown as Open here where the app is already installed)

Wait: Your device downloads and installs the app.

Step 2: On your device click or tap the Moodle icon.
You are asked for your Moodle site name.
Type moodle.uwtsd.ac.uk
And click or tap CONNECT

Moodle App (For Android) Page Two

Step 3: Moodle opens and you are asked to type your id and password.
These are the same as you use to access email or University computers.
Then click or tap LOG IN

Step 4: Click or tap Dashboard or My Courses to see the modules you are enrolled on.

OR use Module Search to find another by code or title.

Moodle App (For Android) Page Three

Sample Page shown on the right, various content can be presented.

PANOPTO may ask you to log in again to get access to view videos.

Click or tap the video tile to open the log in.

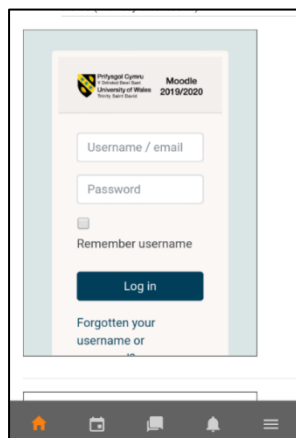

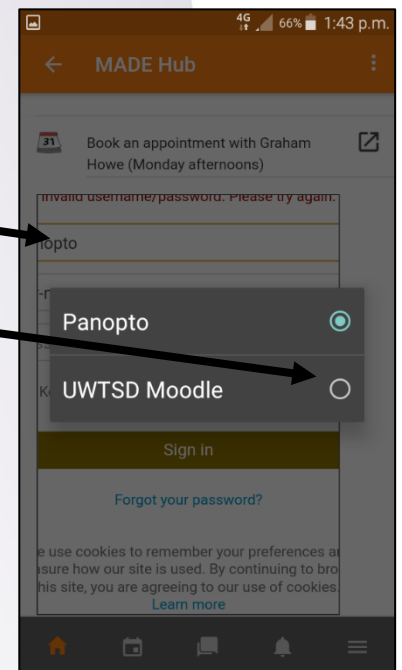

Slightly complicated

Click or tap the Panopto box here

Then select UWTSD Moodle here
(by Click or tap)

Then complete the log in box as shown below,
again using your usual id and password

Note: Videos may be enlarged by rotating your screen to landscape view
