Soleima	Atlantic / Big Beat	Wants left-leaning, cool ideas and tracks a la MØ or Tove Lo. Records and produces her own vocals. Soleima is a critically acclaimed, award winning young Scandinavian female artist which unique style is a mix of r'n'b, electronic/indie and pop. Think M.I.A. /Kali Uchis/SZA/Mura Masa. Soleima's debut album drops in March 2020 so we are currently looking for opportunities within the Atlantic/WMG roster to feature her on other bigger profile artists within the family. Soleima can lean in to both the urban, pop and alternative roster.	4/17/20
