Engagement with Literature Skills		20
Feedback		Marks
To do well in this section, you are expected to in-text cite from the references listed, use relevant, diverse sources of academic credible literatures and industry whitepapers addressing the key concepts on Routing, VPN, DHCP, ADDS, ADCA in your presentation using appropriate referencing conventions. Where possible you are expected to critically appraise the literatures engaged. Key concepts discussed. Could have referred to more academic credible literatures. Appropriate referencing conventions required.		15

Knowledge and Understanding Skills		15
Feedback		Mark
To do well in this section, you are expected to reflect your understanding on Routing Concepts, Summarizing VPN, DHCP, ADDS, CA in your Presentation referring to any real-world example on routing protocols deployed in a production environment addressing different network scenarios. Note that, you are expected to present a reflection on the above and not a "what is what" answer Reflected your understanding on routing concepts, its roles etc. Summarised VPN, DHCP, ADDS, CA and case study.		11.2

Cognitive and Intellectual Skills		15
Feedback		Mark
To score high marks in this section, you need to show evidences on installing RRAS, modifying Firewall, configuring S2S VPN setting up appropriate domain controllers with suitable DNS records. These needs to be demonstrated by executing the Powershell scripts provided to you to check the status. You have shown the installation steps for RRAS, VPN, DNS, DC. However didn't test or shown any screenshot/ scripts executed on their working status. Could have provided with more detailed annotations to explain the process. Very difficult to follow.		7.9

Practical Application Skills		40
Feedback		Mark
To do well in this section, you need to add London network as a child domain, create user accounts as per condition, mount second disk drive, configure DHCP and test the network using Powershell Scripts. Further, you are expected to Share Disk drive to users as per conditions, Configure IIS, enable authentication, and allow RDS with necessary certificates signed. A lot of improvements required. User accounts created. More documentation on Mounting the disk, DHCP, IIS implementation and RDS required. Could have executed the scripts to test the configured functionalities.		12.2

Transferable Skills for Life and Professional Practice		10
Feedback		Mark
To score high you need to ensure that the document is of high quality and professionally done with a good flow of ideas proper use of spelling and grammar tools and a neat presentation. The flow of ideas needs focus. Reflection done. During your presentation, could have slowed down.		6.4
Overall Mark		53
