

A top-down view of a wooden desk. In the top left is a small potted plant with green grass-like leaves. To its right is a white computer keyboard. Below the keyboard are two black binder clips. In the bottom right corner is a black spiral-bound notebook with a white lined page, and a black pen with a silver tip lies next to it.

Component 3 – Reflective Presentation

a.Challenges and Opportunities for Students in the Digital Era

b.Students who understood that using Digital Tools they can develop adaptability skills and realise that they can achieve their main goals and succeed in modern education

Research

- a. I found sources through World Wide Web as in Google and through online reports.
- b. I realised that it is actually pretty hard to find the right source and to determine the source credibility in the process of research
- c. The research i have done helped me understand more clearly about the importance of tha digital tools.

Planing & Writing

- a. I started my work with the main question as in making it clear what's the main subject and identifying both the challenges and the opportunities that student may face in the digital era
- b. I've used short head lines in every component and tried as much as i could to keep it relevant to the subject.
- c. The most hardest part was to find the right informations from the sources i chose to present my work with.

Challenges

- a. The biggest challenge that I've faced during my work was to focus properly on the task in hand as I was getting very easily distracted and managing to get the right information for the subject.
- b. I've managed to get over this with ambition and perseverance and also by organizing my notes properly. It is quite satisfying to prioritize the things you need to do to accomplish the task.

Succeses

a. What I'm mostly proud of my work that i have done, is actually that i have finish it, and I'm also proud that i could find some good information about the challenges and opportunities that students face when using digital tools.
