

DS 1 Template

My Screenshots/Photos

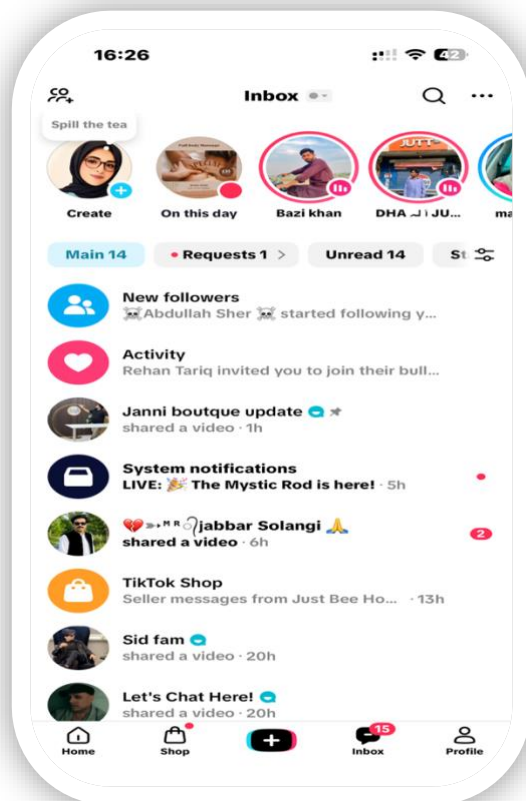

- Please add 4–6 screenshots or photos of your digital life.
- You can use your phone or laptop.
- For each screenshot, write one or two sentences explaining what it shows.

Screenshot/Photo 1 whatsApp

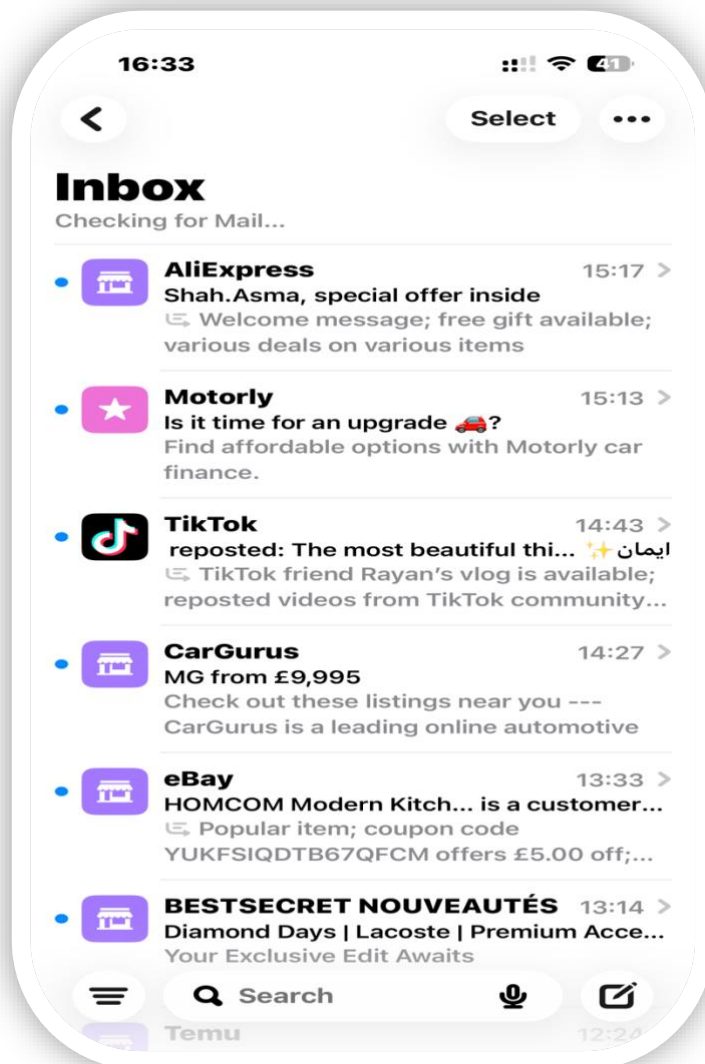

I use WhatsApp to communicate with my family and friends in the UK, Pakistan and France. It helps me stay connected with my family even when we live in different countries.

Screenshot/Photo 2 Tiktok

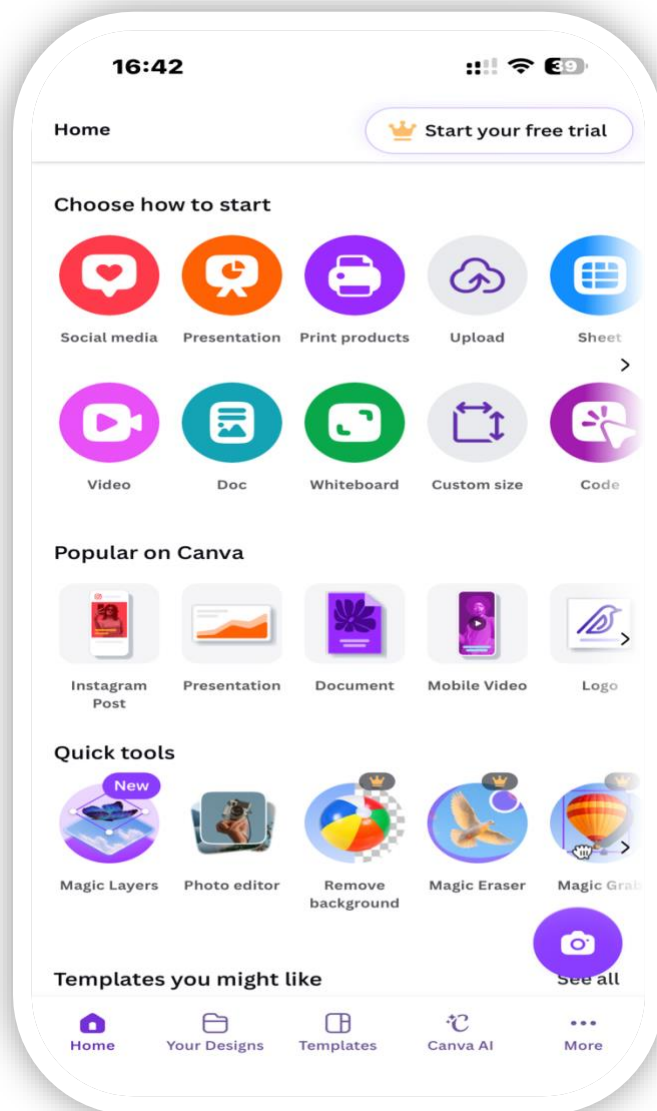

I use TikTok to watch and create videos. I can also use TikTok to promote products and communicate with other people. It helps me learn about new products and share content online.

Screenshot/Photo 3 Mail

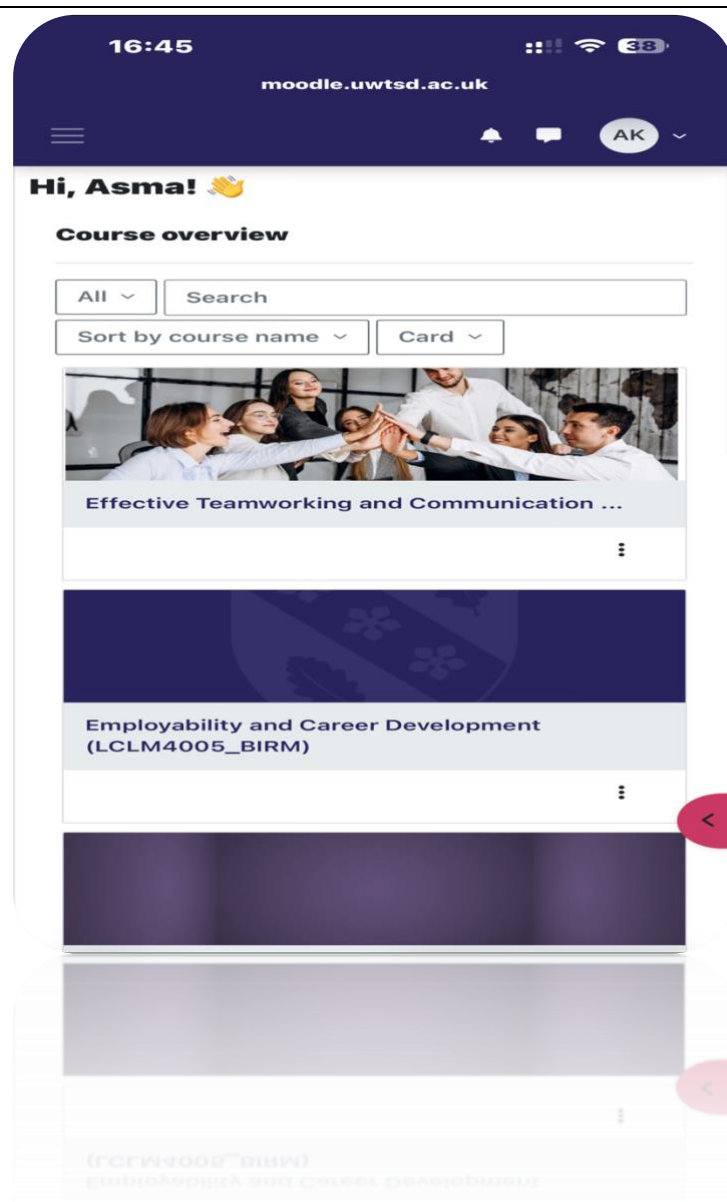

I use email to communicate with my university and receive important information. It helps me keep up to date with my studies and other important messages.

Screenshot/Photo 4 Canva

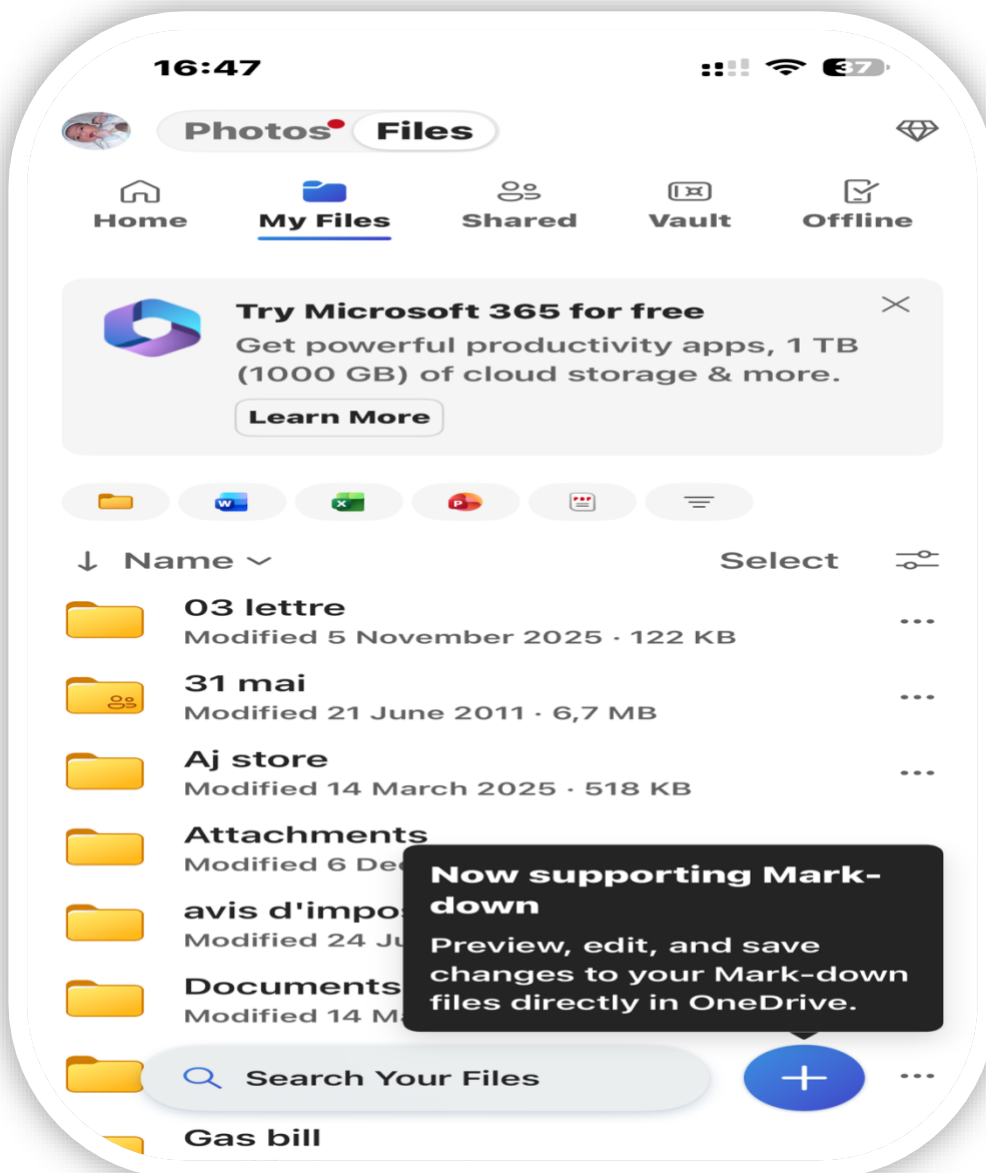

I use Canva to create and edit designs and presentations. It helps me be creative and create content for different purposes.

Screenshot/Photo 5 moodl

I use Moodle to access my university course materials and complete my learning activities. It helps me keep track of my studies and assignments.

Screenshot/Photo 6 Onedrive

I use OneDrive to store and organise my files online. It helps me access my documents from different devices and keep my university work safe.

My Short Reflection

I use digital tools to communicate, study and complete everyday tasks.

I often use WhatsApp, TikTok, email, Moodle, Canva and OneDrive.

I feel confident when I use familiar apps and communicate with my family online.

I want to improve my computer and digital skills.

I sometimes feel nervous when I use a new digital tool for the first time.

I hope this module will help me become more confident with technology.

Digital skills are important for me because they can help me with my studies and future work.

Submission Checklist

Before you submit, please check:

- ☒ I added 4–6 screenshots
- ☒ I wrote short sentences for each screenshot
- ☒ I wrote my short reflection
- ☒ My work is my own
- ☒ My file opens correctly
- ☒ My file opens correctly
