

Notes on the Advanced/Further advanced Latin epic exams

- The exam papers will be available via the Moodle quiz function at the time of the exams on the 16th January. Make sure you click on the right exam for your level (advanced is available at 10 am; further at 2pm but see below).
- The details of the exam (seen/commentary/unseen) are at the top of the moodle page.
- You will be invigilated by me via individual Teams meetings (if you have no experience of these I can do a dummy run in advance): I will set up meetings with staggered times of 5 minutes. So one person will meet up at 13.55 and start at 14.00, one will meet at 14.00 and start at 14.05 etc. You will have two hours from the moment you start the quiz so do not start early.
- During the exam, you will need to both screen share and have video on – You can mute your mic and audio as soon as you start working.
- During the exam, you need to record the Teams meeting. This recording will automatically save to the meeting and automatically finish when you hang up.
– I will drop in and out of the call.
- You will need to enter your answers by typing into the quiz box, but I recommend first doing a draft in a document e.g. in Word and copy/pasting it when complete (give yourself time to paste the last question!)
- Any questions please get in touch ASAP.
