Time to complete

1. Student Rep Name *

Tia Willock

2. Student ID *

2514120

3. Programme of Study *

- ☐ Foundation Year
- ☐ Year 1 BA Games Design and BA Animation & VFX
- ☐ Year 2 BA Games Design and BA Animation & VFX
- ☐ Year 3 BA Games Design and BA Animation & VFX
- ☐ Year 1 BSc Computing (Applied Com, Cyber, SE, Games Dev)
- ☐ Year 2 BSc Computing (Applied Com, Cyber, SE, Games Dev)
- ☐ Year 3 BSc Computing (Applied Com, Cyber, SE, Games Dev)
- ☐ BEng Electrical and Electronic Engineering (FT & Apprenticeships)
- ☐ Year 2 BEng Embedded Electronic Systems
- ☐ Year 3 BEng Embedded Electronic Systems
- ☐ Year 2 BEng OME
- ☐ Year 3 BEng OME
- ☐ Year 4 BEng OME
- ☐ Year 5 BEng OME
- ☐ MA Animation
- ☐ MSc Computing
- ☒ Year 1 Digital Degree Apprenticeship
- ☐ Year 2 Digital Degree Apprenticeship
- ☐ Year 3 Digital Degree Apprenticeship
- ☐ Year 4 Digital Degree Apprenticeship

4. Programme Manager or Year Tutor *

- ☐ Adam Head
- ☐ Divya Chidambaram
- ☒ Gaynor Thomas
- ☐ Ewa Kazimierska
- ☐ James Williams
- ☐ Nitheesh Kaliyamurthy
- ☐ Nabeel Masih
- ☐ Rich Morgan
- ☐ Stalin Jacob Dhas
- ☐ Steve Mosey
- ☐ Seena Joseph
- ☐ Phil Organ

5. Date of Course Meeting *

10/11/2025

Student Welfare and wellbeing

6. ***How do you feel as a student at the University, do you feel as part of a community, what you have and what is working, what you don't have / is not working, e.g. lecturer support, support services, students' community, social activity, etc ****

	Very Satisfied	Somewhat satisfied	Neither satisfied nor dissatisfied	Somewhat dissatisfied	Very dissatisfied
Support provided by academic staff	☐	☐	☐	☒	☐
Information on how to access student services and Wellbeing support	☐	☒	☐	☐	☐
Opportunities for social activities	☐	☐	☒	☐	☐

7. What you feel is working well *

Students feel like they're getting plenty of support from James, they really enjoy having him as a lecturer. They find Divya a friendly lecturer.

8. What could be improved / Dislikes *

Some students feel like they could do with more support from Divya. They have found her hard to get hold of on emails outside of course time. Some students have said they didn't actually get a reply to their question.

9. Any suggestions or ideas to improve *

Maybe suggest a window of time that she could be free during the week, so people are guaranteed a response.

Learning and Teaching Resources

10. *

	Very Satisfied	Somewhat satisfied	Neither satisfied nor dissatisfied	Somewhat dissatisfied	Very dissatisfied
All Course information is available on Moodle	☐	☐	☒	☐	☐
Able to access to subject specific software and hardware	☐	☐	☒	☐	☐
Received clear instruction on use of Gen AI tools	☒	☐	☐	☐	☐
Received assessments on time	☒	☐	☐	☐	☐
Clear instructions were given out on completing assessments	☐	☐	☒	☐	☐
Students are well-prepared and supported for assessments	☐	☐	☒	☐	☐

11. What you feel is working well *

Learning in a Digital Era is going well. Students feel like James is very thorough, very structured.

12. What could be improved / Dislikes *

1. Most of the class would have liked for us to get our feedback from our assignment for James back, before submitting our first assignment for Divya, so we could use the feedback. Some people have never been to university and feel like they were going in to their first proper report a bit blind. | 2. For Introduction to Web Development - Students feel that for the report we just submitted, they weren't really guided on what needed doing. Each student got answers to questions, which they shared with the rest of the class, which was the only reason we knew some of the information. 3. Introduction to Web & Data - Accessibility - some students requested the powerpoint before the class or at the beginning, so they can follow along due to medical conditions - hasn't really been available for said students.

13. Any suggestions or ideas to improve *

1. Get assignment 1 back before handing in assignment 2, so they can utilise that feedback. | 2. Go through the whole assignment brief thoroughly first so everyone knows what they are doing. | 3. Maybe add a bit more basic knowledge or use less jargon so everyone catches up and are at the same level. | 4. Maybe do a survey at the beginning of class or topic, to see what the students preferred teaching method is, so they get the best out of the class. | 5. If there are answers on the slides, maybe make two different slide decks, one that can be made available before/ during and then replaced with the one with the answers afterwards.

Academic Experience

14. *

	Very Satisfied	Somewhat satisfied	Neither satisfied nor dissatisfied	Somewhat dissatisfied	Very dissatisfied
<i>Module lecturer makes subject interesting and engaging</i>	☐	☐	☒	☐	☐
<i>Students understand the importance on independent learning to balance learning and assessments</i>	☐	☒	☐	☐	☐
Received all Course information at start of academic year	☐	☒	☐	☐	☐
Able to contact the module lecturer when needed and received a swift response	☐	☐	☐	☒	☐
The quality of the teaching in your course	☐	☐	☐	☒	☐
Feel the course content is relevant and up-to-date	☐	☐	☒	☐	☐

15. What you feel is working well *

As said previously, students find James very engaging, mixed feedback over the content, but mostly positive.

16. What could be improved / Dislikes *

1. For Introduction to Web & Databases - Students feel like everyone is at different levels of knowledge, and feel like the knowledge base of students is being assumed. | 2. Some students are struggling with the teaching style in Introduction to Web & Databases - they feel like they aren't quite understanding the content.

17. Any suggestions or ideas to improve *

1. Maybe add a bit more basic knowledge or use less jargon so everyone catches up and are at the same level. | 2. Maybe set some time she is free outside of lectures, so that people will know what they can get hold of her.

Course Organisation and Management

18. *

	Very Satisfied	Somewhat satisfied	Neither satisfied nor dissatisfied	Somewhat dissatisfied	Very dissatisfied
<i>My course is organised and managed well.</i>	☐	☒	☐	☐	☐
Any Changes (timetable, teaching, etc) are communicated on time	☒	☐	☐	☐	☐
All essential resources, hardware and software licences are working well	☐	☐	☒	☐	☐

19. What you feel is working well *

When resources weren't working, James suggested alternatives for students to use, which was really helpful. Divya also did something similar, which students found useful.

20. What could be improved / Dislikes *

Not all options suitable for devices outside of windows.

21. Any suggestions or ideas to improve *

Not all users have windows devices, so consider alternatives for Mac users.
