WORK EXPERIENCE

JANUARY 2021 - CURRENT

[Junior front-end Developer](#) / **Adtrak**
Nottingham

Working on WordPress-based websites mostly.

- Performance <- Template
- Modular
- Bespoke

Learning:

- Twig (Timber)
- Tailwind (CSS)

OCTOBER 2020 - JANUARY 2021

[Problem Solver](#) / **Amazon - EMA 2**
Mansfield

Working as a Fulfillment associate at EMA 2 - Amazon in Mansfield. The position requires of me to operate a laptop and scanner on a mobile desk, walking around and checking certain totes and items, to make sure that the errors in the system won't affect the reception of items for the customers. Solve different issues with the system timing, hazmat items, damaged items, expiry dates and other difficulties that appear in the system. Making the items sellable so they get to the customer

JANUARY 2018 - DECEMBER 2018

Front-end developer / **WareHatch**

Bucharest

Working on creating these 3 projects as a Frontend Developer.

- <https://rideau.com/>
- <http://www.garageoutfitters.com/>
- <http://meetbolo.com/>
- <http://mediawiremobile.com/>
- <http://rwiseman.com/>
- <https://giggles.ca/>

Rideau.com, Garageoutfitters, Meetbolo was made with a custom made theme, and mediawiremobile.com, Giggles.ca, rwiseman.com, were made by me, using HTML,CSS,PUG,SAS,JQUERY AND BOOTSTRAP.

AUGUST 2016 - DECEMBER 2017

Junior front-end Developer / **Aegisroot**

Bucharest

The beginning as a junior programmer. Learning the following:

HTML5

CSS3

Bitbucket

PUG

SASS

WORDPRESS

Then unfortunately the company shut down.

JULY 2015 - JUNE 2016

Junior Marketing Consultant / **Sehrmes Intellegencia**

Bucharest

- Posting and promoting content for website
- Research for new links to build for website
- Building links without hurting a website's reputation
- Developing an online presence for website by keeping up to date with changes on search engines
- Organizing links by category for each website ad reporting to the client

JANUARY 2013 - JUNE 2015

Junior front-end Developer / **Royal Center Group**

Bucharest

- maintenance for different projects
- programming interventions in various projects that need changes or that have remedial problems

Cover Letter

I am writing this letter to apply for the position of software developer. I am a hard-working individual who makes sure that all the tasks assigned to me are completed on time while at the same time maintaining the highest quality. In my experience, I have been able to work with a team that has been very supportive, and which has enlightened me on the importance of working together in order to achieve the best results possible in the shortest time possible (Sprint).

I self-taught myself always and due to that I have acquired every job I ever wanted and made a difference wherever I worked.

I have been learning several technologies during the 7 years that I have been into IT Software Development; I have learned technologies such as:

HTML/CSS/PHP/JS/JQUERY/PUG/SASS/GIT/GULP/WORDPRESS/TWIG/TAILWIND and Bootstrap.

Currently with all that I have learned during my years of studying both within and outside a job, I got an opportunity to work for "AdTrak", which has really help develop my career and make it further within the UK IT market and has given me the opportunity to work with a dedicated team. It is in here that I consider myself to have the potential to even aim higher in life and take all the opportunities that come my way.

Having said this, I believe I will be a great addition to your team, and I am looking forward into your consideration to work with you. Thank you.
