

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Research Informed Literature Extent of research and/or own reading, selection of credible sources, application of appropriate referencing conventions.		
Your research into the written parts of the assignment were poor and showed no depth of understanding. In future spend more time looking into the topics and document your findings, this will ensure higher marks.	15	10
2. Knowledge and Understanding Skills Extent of knowledge and understanding of concepts and underlying principles associated with the discipline.		
Due to your lack of research you have not scored highly in this area. Your practical skills were good and were let down by your lack of research.	20	13
3. Cognitive and Intellectual Skills Analysis, evaluation and synthesis; logic, argument and judgement; analytical reflection; organisation of ideas and evidence		
You have performed well in the practical areas and have shown understanding for the technology, the written research let you down.	20	14
4. Practical Application and Deployment Deployment of methods, materials, tools and techniques; application of concepts; formulation of innovative and creative solutions to solve problems.		
You performed really well in this area and met all the criteria for the assignment, well done.	40	28
5. Skills for Professional Practice Attributes in professional practice: individual and collaborative working; deployment of appropriate media; presentation and organisation.		
Your presentation for the practical work was good, you were let down by the research tasks.	5	4
