- Future generation act (wales) 2015
- Why is it needed?
- How does the future of generation act work?
- What are the three pillars ?
- Future generation act (wales) 2015 and does it link to the three pillars in creating a sustainable development?
- Conclusion

Future generation act (wales) 2015

- The Future Generations Act is an part of legislation that is helps make sure that Wales is Sustainable.
- The aim of the future generations act is meant to make a positive improvement , in such areas as the economic, social, within the environment and also within the overall well-being/cultural of Wales.
- By the Welsh government taking this positive action, in agreement with the sustainable development goals they are aiming at accomplishing the well-being goals.
- It has five different ways of working out what is needed for the Public Bodies to achieve. The public bodies are...
- There are seven well-being goals they are...
- This view point will provide a positive opportunity for free thinking, innovative thinking and also reflecting on our life styles. And what we want from the public services that are provided by the public.
- ((Llywodraeth cymru welsh government. 2015)

Why is it needed

- It is stated that within Wales, it will face mutable of different issues. Within the most modern time and within the future. These issue could be ...
 - The Welsh government stated that for these issues to be removed we need to work together.
 - To also provide the current generation and for the future generations a high and sustainable quality of life.
 - They also have stated that they will need to think about the long term effect's of the choices we make. The well-being of future generation act will make certain that the public sector will provide this.
 - (Llywodraeth cymru welsh government. 2015)
- 

How does the future of generation act work?

- Sustainable development is about creating a better way of living in all aspect of out life. It can affect the way we use our economic, social, environmental and cultural.
 - For Wales to become sustainable, it is vital that there is an huge improve within the four aspects of well-being. Each part is very important, This will mean that every public body that is listed within the Act must have a plan in the work's to improve the ...
 - These different objectives will show and state how each of the public body will work to achieve this vision within Wales. This is set out within the well-being goals.
 - The Public bodies will then take positive action to make sure they are meeting the objectives they have created. (Llywodraeth cymru welsh government. 2015)
- 

What are the three pillars

Environmental

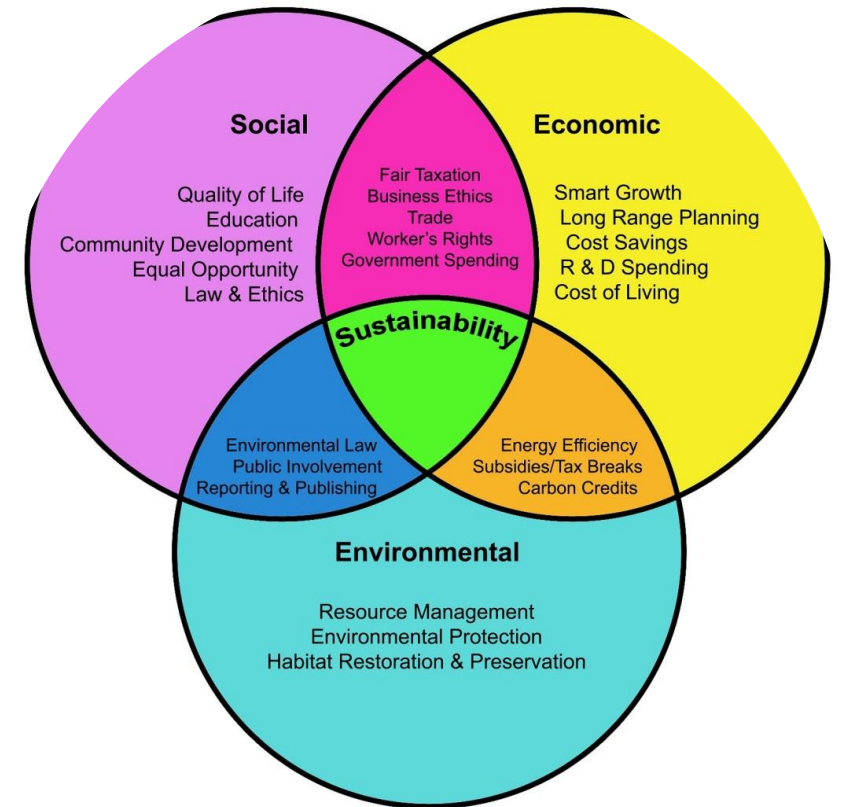

- Environment protection act 1990 (Llywodraeth cymru welsh government.2016).

Social environment

- Social value act 2012 (Gov.uk.2018).

Economic

- Corporate insolvency and governance bill 2020 (Gov.uk 2020).

Future generation act (wales) 2015 and does it link to the three pilers in creating a sustainable development?

- fuel poverty in Wales is stated that if a home will spend ten percent or higher to heat their home. They then will be in fuel poverty bracket.
- The most recent figures show that there are two hundred and ninety-one thousand homes are living in fuel poverty. In Wales
- (Kearns, Ade, 2019)

Conclusion

The image features a central dark brown circle. Surrounding this circle are several concentric rings of a vibrant red color, which fade into a dark red background towards the edges. Overlaid on the central dark brown circle is the text 'The End' in a white, elegant, cursive script. The text has a subtle black drop shadow, giving it a three-dimensional appearance as if it's floating slightly above the surface.

The End
