

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
General Comments		
A well presented and informative report on the functions of an OS and scripting elements within Windows/Linux OS. Only issue with regards to scripts is the anticipation of a set of instructions on how to use them effectively (obvious with your Linux scripts, but not windows). Only one other point of note - rubric is clear on the engagement of a online course - nothing could be found	100	85
1. Engagement with Literature Skills		
A comprehensive research activity into the functions of a typical OS - no issues notes	20	20
2. Knowledge and Understanding Skills		
Nice work on your newly found skills with CLI command and scripting within Windows/Linux - no issues noted	20	20
3. Cognitive and Intellectual Skills		
Good execution of your research on the functions of a typical OS, each of which is supported with cited references and supporting images	10	10
4. Practical Application Skills		
You have generated a set of CLI commands for both OS's and they have been documented. However, there was some expectation that you supported each command with the supplied help from each OS. Scripting is fine, but lacking end user support within windows i.e., a set of instructions on how to use and could be easily achieved with a simple extension of the script. Also, rubric is clear with the engagement with a suitable online course	40	25
5. Transferable Skills for Life and Professional Practice		
No issues with the structure/presentation of this report - please use this as you progress to L5	20	10

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)

Late Submission Penalties (tick if appropriate)

Up to four weeks late
