

LEVEL 6 ASSESSMENT SPECIFICATION

Programme:	BA Developing Leadership and Management		
Module:	Emotional Intelligence		
Module code:	BMSW6012	Contribution to Overall Module Assessment (%):	50% (Component 1) 50% (Component 2)
Lecturer:	Julie Thomas	Internal Verifier:	Marie Pitson
Assignment Title:	Poster/presentation – A reflection of the relevance of emotional intelligence to your role. Report – ‘The importance of Self-Awareness’.	Word count (or equivalent):	Poster – 500 Presentation – 5 minutes Report - 2500
Submission deadline:	3pm, Friday 13 th June 2025 3pm, Friday 4 th July 2025 (report)	Return date of provisional marks & written feedback:	4 th August 2025
Submission method:	All written assessments, where practical and possible, must be submitted via Turnitin unless otherwise instructed by the Lecturer. (Please DO NOT put this assessment specification into Turnitin or it will match many similarities with other students' submissions.) Alternative submission method (if applicable): Late submission of the assessment will result in a late penalty mark. Penalties for late submission: Up to one week late, maximum mark of 40%. Over one week late, 0%. Only the Extenuating Circumstances Panel may approve a change to submission dates.		
Academic honesty / referencing:	Academic honesty is required. In the main body of your submission you must give credit to authors on whose research and ideas your work is based. Append to your submission a reference list that indicates the books, articles, etc. that you have used, cited or quoted in order to complete this assessment.		

Module Learning Outcomes (from module syllabus)

Upon the successful completion of this module, the student should be able to:

- explore concepts of emotional intelligence and its relevance to the workplace;
- demonstrate systematic understanding and application of emotional intelligence frameworks;
- critically appraise the importance of emotional intelligence and mindfulness in the workplace.
- critically evaluate the links between emotional intelligence, compassionate management, wellbeing and organisational performance.

TASK DESCRIPTION

Use of Generative AI in Assessment

NONE	For this assessment, you are not allowed to use any type of Generative AI support. This includes research support, structure support, writing/proofreading support and creative support.	Yes ☒ No ☐
------	---	--

At the beginning of your assignment, you must therefore state the following:

I confirm that I have not presented any AI generated materials as my own work.

I confirm that I have copies of my drafts, notes, and other resources I used, which I may be asked to provide in evidence.

Tasks:

To demonstrate effective leadership and management skills it is important to be able to research a subject, communicate your knowledge and understanding in an appropriately academic manner and apply your knowledge and understanding in a workplace context. This assignment will involve you preparing an electronic academic poster and accompanying video for your fellow students, plus a report for your lecturer.

Component One – Academic Poster and Presentation (50%)

Your task is to prepare a 500 word academic poster together with a 5 minute video presentation for your fellow students.

1. Using at least 5 peer reviewed journal articles published in 2022 or later, plus 5 other sources, define emotional intelligence and reflect on its relevance to your current or previous job role. You must include specific detail of your role (e.g. where you work, your duties). You can choose your own title.
2. Your poster must contain intext citations (the reference list should be placed at the end of your speaker notes).
3. You may use any medium you choose for your video, though you should be visible at some point in the presentation. In its simplest form, this could be recorded on your mobile phone. The video must not exceed 5 minutes – any content over 5 minutes will not be marked.
4. You must upload a document that contains your poster (500 words) and a separate document containing your speaker notes (with reference list) and link to your video, if it is not contained in your poster.

Component Two – Report (50%)

Following the completion of the 5 challenges given to you in class to improve your self-awareness (expressing gratitude, spending time in nature, practising solitude, getting sufficient sleep and pausing before reacting), produce a report that contains the following:

1. A critical analysis of the importance of managers developing their self-awareness in modern organisations.
2. A critical discussion of the concepts underpinning the challenges.
3. Using Gibb's reflective cycle, a reflection on at least 3 of the challenges.
4. A development plan for the next six months, focussing on developing your emotional intelligence (not included in word count).

Your report should contain an executive summary, contents page, introduction, sections to address the above tasks, conclusion and development plan.

GUIDANCE FOR STUDENTS IN THE COMPLETION OF TASKS

NOTE: The guidance offered below is linked to the five generic assessment criteria overleaf.

1. Engagement with Literature Skills

Your work must be informed and supported by scholarly material that is *relevant* to and *focused* on the task(s) set; you should make use of scholarly reviews and primary sources, where appropriate (for example, refereed research articles and/or original materials appropriate to the discipline). You should provide evidence that you have accessed a wide *range* of sources, which may be academic, governmental and industrial; these sources may include academic journal articles, textbooks, current news articles, organisational documents, and websites. You should consider the *credibility* of your sources; academic journals are normally highly credible sources while websites require careful consideration/selection and should be used sparingly. Any sources you use should be current and up-to-date, mostly published within the last five years or so, though seminal/important works in the field may be older. You must provide *evidence* of your research/own reading throughout your work, using a suitable referencing system, including in-text citations in the main body of your work and a reference list at the end of your work.

Guidance specific to this assessment: You should use at least 10 sources for your poster/presentation and at least 20 sources, to underpin your points in your report.

2. Knowledge and Understanding Skills

At level 6, you should be able to demonstrate coherent and detailed knowledge and a systematic understanding of the subject area, at least some of which is informed by the latest research and/or advanced scholarship within the discipline. You should be aware of the uncertainty, ambiguity and limits of knowledge. Your work must demonstrate the growing extent of your knowledge and systematic understanding of concepts and underlying principles associated with the subject area. *Knowledge* relates to the facts, information and skills you have acquired through your learning. You demonstrate your *understanding* by interpreting the meaning of the facts and information (knowledge). This means that you need to select and include in your work the concepts, techniques, models, theories, etc. appropriate to the task(s) set. You should be able to explain the theories, concepts, etc. meaningfully to show your understanding. Your mark/grade will also depend upon the *extent* to which you demonstrate your knowledge and understanding; ideally each should be complete and detailed, with comprehensive coverage.

Guidance specific to this assessment: You should demonstrate sufficient knowledge of the constituent parts of emotional intelligence and links to employee/organisational performance. Your work should contain explanations of relevant theories and frameworks of emotional intelligence and wellbeing.

3. Cognitive and Intellectual Skills

You should be able to: critically evaluate evidence, arguments, assumptions, abstract concepts and data some of which are at the forefront of a discipline (and that may be incomplete) to devise and sustain arguments, to make judgements and/or solve problems; describe and comment upon particular aspects of current research, or equivalent advanced scholarship, in the discipline. Your work must contain evidence of logical, analytical thinking, evaluation and synthesis. For example, to examine and break information down into parts, make inferences, compile, compare and contrast information. This means not just describing what! But also justifying: Why? How? When? Who? Where? At what cost? At all times, you must provide justification for your arguments and judgements. Evidence that you have reflected upon the ideas of others within the subject area is crucial to you providing a reasoned and informed debate within your work. Furthermore, you should provide evidence that you are able to make sound judgements and convincing arguments using data and concepts. Sound, valid conclusions are necessary and must be derived from the content of your work. Where relevant, alternative solutions and recommendations may be proposed.

Guidance specific to this assessment: You should present clear, well-argued points on the importance of emotional intelligence in the workplace and other tasks set out in the task description, which are well supported with credible sources. Your reflection should contain sufficient critical analysis.

4. Practical Skills

At level 6, you should be able to apply the methods and techniques that you have learned to review, consolidate, extend and apply your knowledge and understanding, and to initiate and carry out projects. You will deploy accurately established techniques of analysis and enquiry relevant to the discipline, and apply them in complex and unpredictable contexts, to devise and sustain arguments and/or to solve problems. You should be able to frame appropriate questions to achieve a solution - or identify a range of solutions. You should be able to demonstrate how the subject-related concepts and ideas relate to real world situations and/or a particular context. How do they work in practice? You will deploy models, methods, techniques, and/or theories, in that context or circumstances, to assess current situations, perhaps to formulate plans or solutions to solve problems, or to create artefacts, some of which may be innovative and creative. This is likely to involve, for instance, the use of real world artefacts, examples and cases, the application of a model within an organisation and/or benchmarking one theory or organisation against others based on stated criteria. You should show awareness of the limitations of concepts and theories when applied in particular contexts.

Guidance specific to this assessment: You should demonstrate the ability to apply the concepts of emotional intelligence to yourself and create a logical development plan.

5. Transferable Skills for Life and Professional Practice

Your work must provide evidence of the qualities and transferable skills necessary for graduate-level employment requiring the exercise of initiative and personal responsibility and decision-making in complex and unpredictable circumstances. This includes demonstrating: the learning ability for professional development to advance existing skills and acquire new competences of a professional nature that will enable you to assume significant responsibility within organisations; that you can initiate and complete tasks and procedures, whether individually and/or collaboratively; that you can use appropriate media to effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences; fluency of expression; clarity and effectiveness in presentation and organisation. Work should be coherent and well-structured in presentation and organisation.

Guidance specific to this assessment:

Poster:

- Constructed using any application (Powerpoint, Canva etc).
- In-text citations should be included.
- It should be visually appealing and free from spelling and grammar mistakes.
- Word count is 500 words +/- 10%.
- The speaker notes should contain a link to your video presentation, which should be uploaded to Microsoft Stream or YouTube. Alternatively, you can embed your video in your poster.

Video Presentation:

- Recorded in English in an appropriate business/academic style.
- Focus only on the tasks set in the assignment.
- Length: no more than 5 minutes.
- The video presentation can be recorded using any media of your choice. You should be visible in at least some of the video recording.

You should demonstrate appropriate presentation skills such as looking at the camera, clear and logical verbal and written communication, and adhering to timescales.

Report:

You should demonstrate appropriate written skills – your report should be structured appropriately and be well written, with no spelling or grammatical errors. UK English should be used.

STUDENT FEEDBACK FORM

This section details the *extent* to which the assessment criteria are demonstrated by you, which in turn determines your mark. The marks available for each category of skill are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

GENERIC ASSESSMENT CRITERIA

Level 6

In accordance with the Framework for Higher Education Qualifications, at the end of Level 6 students should have coherent and detailed knowledge and a systematic understanding of their subject area, at least some of which is informed by the latest research and/or advanced scholarship within the discipline. They will be able to accurately deploy established techniques of analysis and enquiry within a discipline, using their conceptual understanding to devise and sustain arguments and/or to solve problems. They should be aware of the uncertainty, ambiguity and limits of knowledge. They should be able to critically evaluate evidence, arguments, assumptions, abstract concepts and data (that may be incomplete), to make judgements, and to frame appropriate questions to achieve a solution - or identify a range of solutions. They will apply the methods and techniques that they have learned to review, consolidate, extend and apply their knowledge and understanding, and to initiate and carry out projects. They will have the ability to manage their own learning, and to make use of scholarly reviews and primary sources (for example, refereed research articles and/or original materials appropriate to the discipline). They will demonstrate the qualities and transferable skills necessary for employment requiring: the exercise of initiative and personal responsibility; decision-making in complex and unpredictable contexts; the learning ability needed to undertake appropriate further training of a professional or equivalent nature.
