KASPIAN

BIOGRAPHY

Having cut his teeth playing club nights on the South Coast as well as curating the earliest releases for YosH Pit. London based producer Kaspian is taking the old school styles of rave music and combining them with his influences of artists like Armand Van Helden, Fatboy Slim and MK and creating something familiar yet new.

With some of his previous collaborations being played at EDC and his first solo effort "Get Wicked" sitting at 17'000+ streams it seems Kaspian is gearing up to captivate the hearts of fans everywhere.

Get Wicked is a tune I would have definitely gone partying to back in the day. It sounds like it's come straight out the 90's. I really like it.

WES SAUNDERS / DEFECTED

Kaspian has a unique but familiar sound, I can really see this project doing well both in the UK and in Europe. Definitely one to watch!
