

ESMP for Chhina's World Festival

Introduction

This document is the official ESMP for an immersive hybrid rap festival taking place in the National Trust Basildon Park, Reading, UK as well as on CHHINASWORLD.COM. The event will take place on the 16th and the 17th of September, 2022 from 12PM - 10PM both days. The festival is a 16+ 3000 person capacity Rap / R&B event. There will be 3000 tickets available for the physical experience and 3000 tickets available for the virtual experience. The virtual experience will be a part of the Chhina's World video game platform and players will be able to take part in the event as they would in person. It will not be a recording of the event, rather it is a virtual replication of the event. The entire sitemap and stage will be created online and players will be able to explore the grounds, purchase virtual merchandise in the form of NFTs and will be able to interact and socialize with other festival goers. The performers will have their avatars created by our team and the attendees will be able to customize their own characters. The entire space will be accessible virtually for the entire duration of the festival even after park closure, there will be live time of day encoded into the game so the light outside matches the light in the game. Everything that is planned to happen in person will occur in the game. There will be a 30 second delay between the two shows to allow our team to keep everything running smoothly online.

In terms of performances, the festival will feature performances from 14 artist sets on both stages across the two days. We will be taking care of the merchandise sales, concession sales, and Ticketmaster will be handling the tickets for the physical show. The virtual show tickets will be sold through CHHINASWORLD.COM in the form of NFTs. Those who hold NFTs to Chhina's World and attend the physical festival will receive certain benefits based on their tier in the community. This introduction is to summarize the overall operations and how the show will be carried out. The rest of this document will break down where everything is located, our operational timeline, what licenses will be required, a risk assessment, fire plans, how security will operate, ticket sales, marketing, as well as budgeting.

License Application

Due to the fact that we will be having a capacity of 3000 people and selling alcohol, a PREMISES LICENSE will be required along with the right to sell alcohol. Furthermore a *MUSIC LICENSE* from PRS will be required since we will be having either recorded or live music playing at all times. Attached below is the application for the PREMISES LICENSE as well as the ALCOHOL LICENSE. Below these is the proposed application through PRS for the *MUSIC LICENSE*, however that quote is subject to change because the original ticket price has increased for the two days.

Risk Assessment

Due to the nature of the show, the genre, and the expected audience there are risks involved with the attendees that we must be aware of. **Potential Threats include but are not limited to:**

- Illegal Substances
- Underage Drinking
- Concealed Weapons
- Injury / Fighting
- Overconsumption of Alcohol
- Rushing of barriers
- Trespassing
- Property Damage

Security at the venue will be aware of these risks and will formulate their own action and reaction plan for each scenario. Searching of bags and pockets with torches and metal detectors should minimize the risk of concealed weapons and illegal substances. Due to the fact that the show is outdoors people may be smoking cannabis during the show which can possibly attract police attention. Furthermore, weather can also pose a problem. Due to that, the stage will have a roof in case it rains. Also due to the fact that we will be hosting the festival on government protected grounds we will have to be careful of any damages to anything that would subject us to fines. The building that is also in the park must be protected so that there are no trespassers putting the historical building at risk.

Fire Plan

Due to the fact that we are outdoors in a mostly open field without any dry trees or grass, fires can be easily controlled. Pyrotechnics will only be used on the main stage and there will be no campsite. The only other sources of fire that pose risk are the following:

- Electrical Fire
- Fire from food shops
- Pyro
- Smoking (attendee induced fire)

Since most sources are limited and can be controlled through precautions taken during setup and by security being aware, then the risk of fire can be minimized greatly. If in any case there is a fire, we will always have at least 1 fire truck on site and ready to go. They will be able to tap into any water station nearby which we will have spread out frequently. Furthermore, in any case we need to evacuate there will be a plan established by security to guide attendees to 1 of the 2 exits.

Staffing

In addition to the Security and Stewards we plan to have 5 ticketing staff, 10 Bartenders, 2 Medics, 2 Photographers, 2 Videographers, 2 Sound Engineers, 4 Stage Hands, 5 Stage / Lighting Construction / Installation crew members, and 4 remote staff members to ensure that the site is running properly during the time of the event. We will also have live support staff monitoring an online chat that will be open during the time of the virtual event.

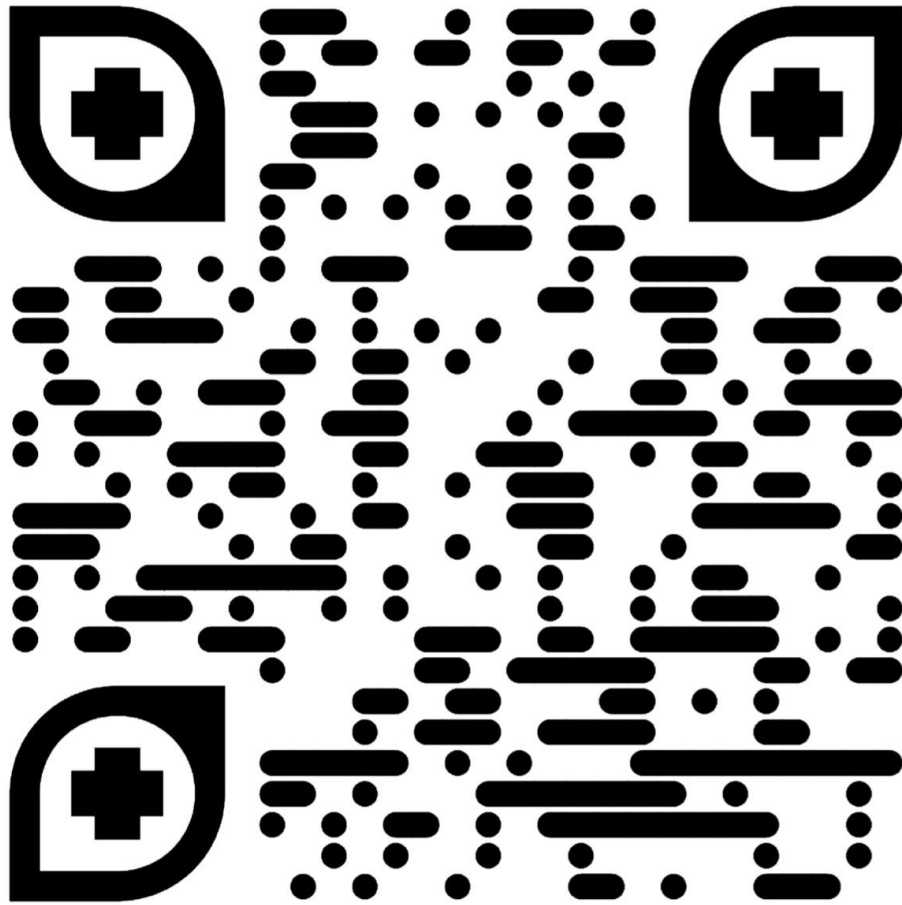

Marketing

Most of this show's marketing will be done online and some will be done on the street. Social Media, Online Advertising, and Mailing lists will be our three big strategies to target different audiences. As a brand we will be posting on social media to ensure that our followers see the festival that we are hosting. Furthermore all of the performers and DJs will be posting and sharing the festival on their socials. The performers and DJs will provide us with the most reach as it is their fanbase that is going to come and watch them perform. Using social media we can also run advertisements on Facebook, Instagram, YouTube, as well as Google. With these we can run ads to either our platform for the virtual show or the physical show depending on where our target market is located. The benefit of running the virtual show in terms of marketing is that we can have attendees from around the world. Our ticket sales for this portion of the show won't be limited to people in and around the UK. We will also have access to the mailing list of all the performers and DJs which means we can send out email blasts and ensure that we sell out tickets for the virtual and physical show as soon as possible. In terms of in person marketing, there will be flyers and street ads all over the central London and Manchester area to promote the festivals. Especially in the London underground where most people are forced to view street advertising. However due to the virtual component, there will be ads around major cities in the world that the artists are from. These ads will feature obsolete branding with mostly a QR code to a landing page made specifically for that billboard. This allows us to maintain our CHHINASWORLD.COM branding, as well as track how effective each billboard is. We will have these in Lagos, Atlanta, Toronto, Chicago, London and Houston. Drake did a similar thing with his album *Certified Loverboy* where he had billboards in each city that was home to artists featured on his project (Canton, 2021). These ads proved to contribute to his albums success considering he debuted at #1 on Billboard.

Branding

In terms of branding - we want to keep the Chhina's World futuristic aesthetic going so our posters and graphics will take the same approach. Samples will be posted below of what you would see. Furthermore, during the show, custom 3D graphics made by our web team will be played behind each artist during their set. These graphics will be interconnected with what is displayed in the game world.

Outcome + Reflection

The outcome of this festival was a success. Our primary goal was the promotion and sale of tickets for the virtual launch of the Chhina's World. We sold out both shows within 2 weeks of tickets going live on July 25th, 2022. Our total profit from the show was £125,385.68 as we sold more than expected in Concessions, Bars, and Food. We also earned extra money from the resale of the NFT tickets, as we received 25% for every resale after the initial purchase. We did run into issues with long lines for toilets and overcrowding in the arena area for the Saturday show as we had a huge high profile line up. Luckily no one was killed during Travis Scott's set. We believe that with this platform can be the future of festivals, allowing artists to be everywhere at once. For the next festival we will be able to reinvest the profit made from this festival, furthermore we will also be able to look at what worked and what didn't.
