Literatures referred to the work. Most of the literatures are online sources. Could have referred to more academic credible literatures and industry whitepapers. Could have added references to practical task. Summaries on the literatures and more critical appraisals could have been done. Referring to literature and summarizing are not copy pasting from the source. It is to understand what the literature is stating and discuss your understanding based on your work done.	6

Discussed about T1 &T2 hypervisor, Cloud Computing with examples. However, could have categorized based on benefits and drawbacks more elaborately. Could have added own Illustrations for DNS rather than using internet source images. The quality of the report is good. Easy to follow up the observational task. Could have added more description on comparing the functionalites and operations of terminologies with different OS's.	13
