

18TH JUNE 2019 SUPPORTING OPPORTUNITY IN SCHOOLS

Promoting Educational Equity

Ensuring that the children of Wales get every opportunity to succeed in a fair and equitable education system is of the utmost importance to Wales' National Mission in Education, seeking to grow a system of 'strong and inclusive schools committed to excellence, equity and wellbeing.' This half-day conference is aimed at educational leaders, consortia and professionals with an interest in supporting equity within school contexts. It will explore key themes related to promoting educational equity in school through a series of key note speakers and showcase examples of how schools have developed both excellence and equity in their practice. The conference will also share a range of exciting and innovative digital tools which schools can use to develop and enhance equity within their school, developed as part of an international collaborative project between inspectorates, universities and schools in five countries.

**Refreshments and a light lunch will be provided.*
