

Component 2 (C2)– Preparing for an interview presentation

Name – Hassan Khan (2021658)

Date – 12/03/22

Date due – 16/03/22

The job I am going to be applying for is the role of a credit card specialist in the Lloyds Banking Group.

Hello my name is Hassan Khan and I am 20 years old, I will be 21 on the 18th of March which is in a couple of days.

1. Tell me about yourself and why you are suitable for the role?

I am a very energetic person in and outside the work environment. I enjoy playing football and going out with my friends when I'm free to do so. I also have a side business which I operate in my free time, I buy and sell designer goods. That is something in my life that has inspired me to do more and to open a solid franchising business is something for I dream of. I think I am suitable for the role because I am a very hardworking individual who loves to communicate with people and help them solve their problems. I know that a credit card specialist comes across a lot of problems throughout their day of work. They have to go through a lot of complaints everyday and servicing the

card is not easy I'm guessing, but I'm ready to overcome these problems because that is what I'm good at.

2. Where do you see yourself in 3 years' time in this company?

I see myself as a progressed individual who has a better role within the company. I am hoping to get the role in the fraud team as I heard they have a better hourly pay and they have a lot of bonuses. I hope to have a team manager role also, I would love to run my own team and to be leading people to strive to making their jobs something they love, that is something I've always wished to do. If I was team manager I would make the work environment a more uplifting place to be. Keeping on top my teams stats and making sure everyone is on top of their jobs and doing it to a professional standard, maintaining a good image for the business.
