

Data Mining – Dataset Presentation			
Student	ZL LIU ZHEN (JACK)		
Dataset	AIRBNB		
Marking			
Presentation/Slides (Clarity, readability, flow, accuracy, completeness, performance) <i>Good introduction - engages with audience. Try not to read from slides directly. Good presentation style. Good clear slides.</i>			(10 marks) 7
Dataset Description (Where did the data come from? What does the data describe? Is the sample large enough? What data formats and types are involved?) <i>Good coverage of the data items within the dataset. Give the size and origin of the dataset before you discuss the individual data items.</i>			(50 marks) 35
Dataset Suitability (What features of the dataset lend themselves to data mining? Has it been mined previously? Why does the student feel that they have the contextual background to work with this data?) <i>Relatively small but adequate for the task.</i>			(20 marks) 12
Objectives (What does the student plan to investigate/expect to find? Are these SMART?) <i>Some good research questions. The nano one might be tricky to do.</i>			(20 marks) 12
General comments <i>A good presentation. Good answers to questions</i>			
Date	66	Agreed Final Grade (%)	66

Data Mining – Dataset Presentation			
Student	Jack		
Dataset	Air BnB		
Marking			
Presentation/Slides (Clarity, readability, flow, accuracy, completeness, performance) clear slides, slide numbers would be nice			(10 marks) 7
Dataset Description (Where did the data come from? What does the data describe? Is the sample large enough? What data formats and types are involved?) nice dataset background Attribute Types and Description very nice			(50 marks) 35
Dataset Suitability (What features of the dataset lend themselves to data mining? Has it been mined previously? Why does the student feel that they have the contextual background to work with this data?) understanding of subject having used it. Data Size just within Boundary required			(20 marks) 12
Objectives (What does the student plan to investigate/expect to find? Are these SMART?) Question/Aim 1 - Location and price may be difficult 2 - Analysing of reviews seems interesting but may be difficult 3 - Names - very difficult you may need to think about this			(20 marks) 11
General comments Started reading slides but add content after which was good. questions answered well Time 13 mins 40 sec
