ASSESSMENT SUBMISSION GUIDANCE

In planning and preparing their presentation, students should consider the following steps:

1. Create your own narrated presentation

You have a few options:

- Use Slide Show on PowerPoint to narrate your presentation;
- If you are not using PowerPoint (e.g. Prezi), use a tool to record your screen whilst you are narrating the presentation (e.g. Screenshot for MacOs, Xbox app for Windows, VLC Media Player for Windows)

Select the template you require and start populating the slides with the content you decide is relevant for the assignment brief.

If you use PowerPoint:

- If you click on the SLIDE SHOW tab at the top of the menus, one of the subheadings is to 'Record Slide Show'. Press this and you should have a sub heading to 'Record from the beginning' or 'Record from Current Slide'. To record the whole presentation, you can press 'Record from the beginning'. For an individual slide narration then press 'Record from Current Slide'.
- To know whether the slides have narration over them, there should be a little speaker icon in the bottom right hand corner of the PowerPoint file.

2. Prepare a script for the presentation

It is probably advisable that you plan what you are going to say for each slide. This way you can practice your delivery before actually starting the recording process.

Make sure the content of the presentation reflects approximately 10min.

3. Save your presentation

It is advisable that students save this file to OneDrive for Business.

When saving the presentation, please add your name to the file (e.g. PDP_CW2_JohnSmith.pps)

4. Submitting your presentation (!!!)

- Once the file is saved then you need to **create a link and send the link through to your module tutor** (e.g. share OneDrive link, email,...)
- The **assignment brief will need to be uploaded to Moodle/Turnitin** so that marking and feedback can be passed back to yourselves.
