Student's Email	1708241@student.uwtsd.ac.uk
Module Name	NOSS - WS4
Marked By	Nitheesh Murugan

Engagement with Literature Skills	15
Feedback	Marks
Literatures referred to the work. Could have referred to more academic credible literatures and industry whitepapers. Could have added references to practical task. Summaries on the literatures and more critical appraisals could have been done. Referring to more literatures could have helped your observational task with more analysis and strong evidences.	5.3

Knowledge and Understanding Skills	20
Feedback	Mark
Discussed about T1 &T2 hypervisor, Cloud Computing, DNS. However more elaborate discussion with examples required. Could have added own Illustrations for DNS rather than using internet source images. The quality of the report is good. Easy to follow up the observational task. Could have added more description on comparing the functionalites and operations of terminologies with different OS's. Roles within an Enterprise Network is not about generic network roles. You have to address roles similar to active directories.	8.7

Cognitive and Intellectual Skills	20
Feedback	Mark
Justification of practical tasks were provided. Partially the outcomes of the tasks were analysed.The reflection on the task completed. Proper/ Valid Screenshots provided. Critical analysis on the observations could have added value. The reflection part stops with "The final stage of the task was to adjoin the admin accounts to the domain w". Which is domain w?	14.4

Practical Application Skills	40
Feedback	Mark
Practical Tasks executed appropriately. Screenshots and descriptions were adequate. Is the IP Address on Server 1 and Client 1 configured correctly? Seems both were assigned with same IP Address. If that was troubleshooted, could have added them as Screenshot. As per your document, you state the reason for ping failure is because of DNS. Is that the reason? Not all the screenshots in setting up DC was documented. Screenshots on pre-req check, successful logon after adding the client to domain was not documented.	36.9

Transferable Skills for Life and Professional Practice	5
Feedback	Mark
The flow of the report is good. Could have added definitions and abbreviations on Technical Terms used in the report.	4.2
Overall Mark	70
