April 2026

Dear Parent/Carer,

Barbara Reggio, your daughter's singing teacher, would like to invite your daughter to take part in a questionnaire and possibly a follow up interview to contribute to her masters research on vocal pedagogy and adolescent vocal change. The research aims to explore students' self-perceptions of their changing voice and vocal identity during adolescence, and to investigate how these self-observations and attitudes may influence their motivation, engagement, experience and confidence during individual (or small group) singing lessons and performances.

Data from this study will be available should you want to request it and student names will always be anonymised. A full copy of the final research will also be available for those who wish to access it.

If you are happy to consent for your child to take part in this research please complete this consent form and the one overleaf. The full consent form is attached on the next page.

Please do not hesitate to contact the school if you have any questions.

Kind regards,

Ms [redacted] & Ms Barbara Reggio

Curriculum Leader Music - Singing Teacher

Student Name:_[redacted]_____

Parent/Carer Name:_[redacted]_____

Please tick:
[✓] I consent to my child taking part in this research
[ ] I do not consent to my child taking part in the research

Consent Form for parents, carers/legal guardians (2 pages)

· I [redacted] voluntarily agree for my child [redacted] to participate in this research study.

· I understand that even if my child agrees to participate now, she can withdraw at any time.

· I understand that my child can refuse to answer any question involved during the research process without any consequences of any kind.

· I have had the purpose and nature of the study explained to me in writing and I have had the opportunity to ask questions about the study.

· I understand that my child's participation involves replying in writing to a survey questionnaire, and then discussing these topics in a following individual interview.

· I understand that my child will not benefit directly from participating in this research.

· I agree to my child's interview being audio-recorded

· I understand that all information my child provides for this study will be treated confidentially.

· I understand that if my child informs the researcher that herself or someone else is at risk of harm, the researcher may have to report this to the relevant authorities - this will be discussed with my child first but the researcher may be required to report with or without my child's permission.

· I understand that in any report on the results of this research my child's identity will remain anonymous.

· This will be done by changing my child's name and disguising any details of the questionnaire and interview which may reveal the child's identity or the identity of people the she speaks about.

· I understand that disguised extracts from my child's interview may be quoted in Ms Reggio's (the researcher) Master's dissertation, conference presentation, or published papers.

· I understand that signed consent forms and completed questionnaires will be stored in a safe place at Ms Reggio's home address, and that original audio recordings of interviews will be recorded using Ms Reggio's password secured iPhone and then transferred to and stored on her

password secured laptop of which only she has access, and which will be stored separately in a safe place at her home address, until the university exam board confirms the results of Ms Reggio's dissertation.

· I understand that a transcript of my child's interview in which all identifying information has been removed will be retained for two years from the date of the exam board.

· I understand that under freedom of information legalisation, myself and my child are entitled to access the information she has provided at any time while it is in storage as specified above.

· I understand that I am free to contact any of the people involved in the research to seek further clarification and information.

Dear Parent/Carer,

Barbara Reggio, your daughter's singing teacher, would like to invite your daughter to take part in a questionnaire and possibly a follow up interview to contribute to her masters research on vocal pedagogy and adolescent vocal change. The research aims to explore students' self-perceptions of their changing voice and vocal identity during adolescence, and to investigate how these self-observations and attitudes may influence their motivation, engagement, experience and confidence during individual (or small group) singing lessons and performances.

Data from this study will be available should you want to request it and student names will always be anonymised. A full copy of the final research will also be available for those who wish to access it.

If you are happy to consent for your child to take part in this research please complete this consent form and the one overleaf. The full consent form is attached on the next page.

Please do not hesitate to contact the school if you have any questions.

Kind regards,

Ms [redacted] & Ms Barbara Reggio
