KNOWLEDGE, REASON AND REALITY, ASS 1

Mohamad El Katouri, STUDENT NO: 1910751

ANNOTATED BIB.

This assignment makes good use of secondary sources, revealing an understanding of the wider philosophical dimensions of the arguments at stake... You have managed to review 4 texts in all - one of which is a whole book - all within the wordcount, which is a hard task. But you do well at outlining the main concepts & claims, as well as offer problems, issues and criticisms by drawing on the work of other authors. There's some need to develop these criticisms with a bit more clarity & depth. But overall this is a good piece of work. See comments in body of essay, too.
