Communicating Using Email / Send Emails in the workplace

I have applied for a job and have attached my cv with that email.

V. Avoid Online Scams

How to Avoid Scams:

- Direct phone calls from companies and asking for personal information should be avoided
- Need to check emails closely to find out if they are original or not
- If the person stop responding, it is a scam.
- Trying to deal outside official site
- Need to check official site or app for payment confirmation

VI. Create and Safeguards passwords

+ Fake Passwords 5000 Most Popular Words

In this section I have created 10 passwords and used a brute force attack using 5000 most popular words and few combinations of those words and tried to find out which passwords of mine get matched with the words.
