Time test practicalities

- It is an open-book test and you may use all aids at your disposal (e.g. text books, vocabulary lists, etc).
- You may only attempt the test once and must complete this attempt within 1 hour from your start-time. This includes submitting your answers for marking!
- The quiz interface will have a count-down clock in the navigation box in the upper right hand corner.
- If you are well prepared and well organised, time will not be an issue!
- Once you have completed all questions, you must submit your answers for marking. You can go back and review individual questions before submitting. Your exam is not valid until you have submitted it for marking.

Practicalities

- Time test 1: 60 min
- Time test 1: Extra time (75 min) – only for students with an approved statement of compensatory measures from student support

Questionnaire

Quiz design

- This time test covers materials from the beginning of Reading Latin through to Chapter 1E.
- The level of difficulty increases over the course of the test:
 - Marks are weighted: you will start with a series of questions worth 0.5 marks and proceed to questions worth 3 and 4 marks at the end of the test
 - Leave plenty of time to deal with questions 25-36
- Question types are similar to those in the Demo and Practice quizzes: the material is more complex.
- Questions like those included in the Demo and Practice quizzes are at about the same level as the first part of the test – they do not reflect the complexity of questions in the final half of the test!

Practice

- If you have not completed the Demonstration and Practice quizzes on Moodle, please do so as a matter of urgency, so that I can see that you're comfortable with the navigation
- While doing the practice quizzes, think about what materials you need to have available: verb and noun charts, book marks in RL, etc

Marks and feedback

- The quiz needs both automatic and manual marking, so it will be a few days before you receive your marks
- Please be aware that marks over 70% are scaled to avoid skewing of degree results
- Peculiarities of the British system: results above 80% are very unusual
