

SuperYacht

Individual design project

Background

This project was made for the exhibition in accordance to the situation That many business owners and successful individuals face, the imbalance of time and leisure. The yacht is designed in a way that it caters to the needs of the owners maintaing the healthy balance between work and allowing space for any desired activity. The materials used in the yacht (Bamboo fibre with minimal metal) and inclusion of technologies such as bilge water seperator, electric generators not only ensures the longetivity and low maintainence of the boat but also promotes ecological conservation.

Name : Elon

Age : 35

Business Owner

Likes:

- *Adventure*
- *Movies*
- *Historic Artifacts*
- *Cruising / Sailing*

Elon has owned his business for 10 years and is highly successful. He enjoys travelling and adventure and spending time with friends and family but he finds it very difficult to manage business meetings and leisure.
