

Outsider Workshop

Hand in Thursday 4th at 12:00. Please email your piece to Timi or send a link via WeTransfer.

Purpose

To construct a visually piece that documents your thought process during the outsider task.

Aim to show a clear correlation between the image and key parts of your chosen text.

Where to begin and what to address....

- What was the task?
 - What monologue did you select?
 - How did you interpret or read the speech? (What key words/verbs/sentences became apparent)
 - As you read the speech did you ask the seven questions linked to Stanislavski?
 - What were the answers to those questions?
-
- How did the above developments influence your chosen journey?
 - Explain why each image would be a key moment in the journey, what word and/or sentence would the location prompt? (Key verbs)
-
- What music did you listen to?
 - What emotion/emotions did you associate with this sound?
 - How did it link with the speech?
-
- How would you use all of this insight to form the basis of your actors blocking?

Pay attention to the presentation of your piece use images, sound, footage and text in a creative way.

Here are some initial examples for inspiration:
