

Camera and Lighting

Light for the camera and not your eye

Red Heads

- 800watts
- Halogen bulbs
- Barn doors
- Mains power 13amp
- Gel clips
- Warning: these get very hot and can burn.
- Use circuit breakers and heat gloves

Microbeams

- 200watts
- Halogen
- Mains power 13amp
- Dimmer control
- Gel clips
- Use circuit breakers

Camera Mounted Light

- 10watt x2
- Battery powered
- Fits to shoe on camera
- Small light source

LED light

- 70 LED bulbs
- AA battery powered
- No attachment for stand
- Strong magnet for affixing
- Small light source with no diffuser

Reflector / Diffuser

- Covers / skins give different temperatures of reflection
- Without a cover it becomes a diffuser offering a soft and large light source
- 12 inch and 32 inch version
