Dear UWTSD,

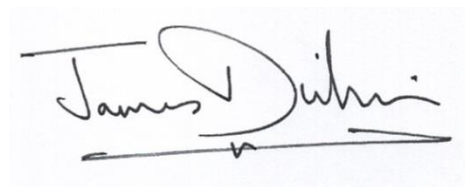

RE: Investigation into the expectations of young singers in Hull across the transition between key stages 2 and 3, and conscious raising of the opportunities they would engage with to continue singing.

I confirm that I approve of the research proposed into 'expectations of young singers in Hull across transition and the desired opportunities to continue singing' to be carried out by Stephanie Miller, singing teacher at Hull Music Service (a team within Hull City Council), during her work with the organisation between September 2021 and January 2022.

I understand that the data gathered in the research will be the intellectual property of Stephanie Miller and will be destroyed following commencement of the research project to ensure anonymity and confidentiality of all participants.

I understand that the findings of her research will be compiled into a report, which can be used to inform the future practice of Hull Music Service and give explicit permission for her to name the city of Hull and the organisation of 'Hull Music Service' as the location of her research.

Kind Regards,

James H. Dickinson
Head of Hull Music Service
