

What was the Ancient Egyptian Creation Myth?

1. Everything begins in chaos. Among the dark water existed 8 Gods, with each pair representing Darkness, Water infinity and Hiddenness.

Be Aware!

Ancient Egypt was around for over 3000 years and this myth changes a lot across the whole period!

2. From these Gods came an egg, which contained a mound and from the mound grew a lotus that bloomed into the Sun God, Ra.

3. With the sun now upon the land, creation can truly begin. And now from the lotus crawls out a Scarab Beetle.

The Scarab beetle then turns into a child, which begins to cry, the tears turn into humanity. And the world is created
