RHAGORiaith

"The Welsh language is one of the treasures of Wales. It is part of what defines us as people and as a nation. Our ambition as Welsh Government is to see the number of people able to enjoy speaking and using Welsh reach a million by 2050. This is certainly a challenging ambition, but a challenge we believe is worthwhile and necessary if we are to secure the vitality of the language for future generations."

Cymraeg 2050 - A million Welsh speakers

"...since there is a limit to the additional number of Welsh speakers which can be created by language transmission from one generation to the next, the education and training system is the principal method of creating new Welsh speakers."

(page 31, Cymraeg 2050 A million Welsh speakers)

Welsh Language Standards

The Welsh Language Standards, introduced under the Welsh Language Measure in 2011, explain how organisations are expected to use the Welsh language in different situations.

There are two guiding principles to the Welsh Language Measure:

- The Welsh language should be treated no less favourably than the English language
- People living in Wales should be able to live their lives through the medium of Welsh should they choose to do so.

Profiadau *Experiences*

- Profiad Wyn Gruffydd

More than just words is a Welsh Government strategic framework for promoting the Welsh language and culture in Health, Social Services and Social Care in Wales.

The aim of **More than just words** is to provide a greater level of recognition among service providers that the use of Welsh is not just a matter of choice but also a matter of need for many people. Service providers, therefore, have a responsibility to meet these needs.

Welsh language awareness

RESUME COURSE

This module gives people working in social care, from early years through to caring for the elderly, an awareness of why Welsh language skills and working bilingually are important. It also signposts to further resources that provide support.

RHAGORIAITH

What three historical events affected the Welsh Language?

- Acts of Union
- Treachery of the Blue Books
- The Welsh Not

Under the Acts, English became the official language in Wales and Welsh was no longer used in public life.

"The Welsh language is a vast drawback to Wales and a manifold barrier to the moral progress and commercial prosperity of the people. It is not easy to over-estimate its evil effects."

If they were heard speaking Welsh, they were forced to wear a block of wood around their necks reading 'Welsh Not'. When a child heard another pupil speaking Welsh, the block would be passed on to them. At home time, the child wearing the Welsh Not would be beaten by the teacher in front of the class.

**Successfully connecting with someone
bilingually doesn't mean that you'll use
Welsh and English in exactly the same way.
It's about creating a safe environment for
Welsh speakers to use Welsh if they wish
to and at any skill level.**
