Swansea Copy Centre. 8 De La Beche Street **Swansea** SA1 3EZ. Tel 01792 552955.

Printing Guide:

1. Printers normally prefer CMYK PDF files
2. Do your visuals full size in PhotopShop (150dpi is usually good enough for large posters) and import to Adobe Illustrator set to CMYK.
3. Do text and/or package work in illustrator (vector line work doesn't pixilate) Save as a PDF.
4. If you have background imagery that goes up to the edge of the print take it a few mm over the print edge to allow for bleed/cropping inaccuracy.
5. Aim to get your print delivered by Fri 11th May at the latest.

Note: An Ergo and Tech package is required for your assessment hand-in on the 15th of May. It can be included on you main board or separate and it's up to you if you want to leave it up for the public show. I'd do a separate print and pin it on the front of you display table. Keep it safe as the External Examiner may want to see some.
