

ECWB7004
Global Citizenship
and
Sustainability

Session 3

Topic of This Week's Sessions

- Session 3: Sustainability and Sustainable Development
- Session 4: Education for Sustainable Development

Sustainability and Sustainable Development

- When did the term 'sustainable development' originate?
- What are the definitions of sustainable development?
- Why did the discussion of sustainability and sustainable development become important?
- Sustainable development goals (UN).

Workshop

Investigate one bullet of the following bullet points, present key ideas in PowerPoint slides and report back to class:

1. How did the concept of sustainable development emerge.
2. What's the relationship between growth and sustainable development?

***You need to identify key ideas, key historical events and draw links between them to answer the above questions.**
