

Study Space Tutoring

Subjects We Teach

English - Maths - **Science** -Business Studies -Digital Skills

Opening Hours

Monday to Friday: 9:00 to 18:00

Saturday: 10:00-14:00 Sunday: Closed

Contact Details

Email: hello@studyspace.co.uk Phone: 07400 123456

address: 12 River Street, City Centre

Prices

First session is FREE

One-to-one tutoring : £18 per hour

Group sessions : £10 per hour

What Makes Us Different

Friendly tutors who explain things clearly

Small group sizes

Step-by-step teaching

Support for all confidence levels

Simple digital tools to help students stay organized

1. I selected Microsoft Word to design my poster because I am confident using the software. It offers a variety of tools that helped me organise the content and create a clear, professional-looking design.
 2. I based my work on the information provided by my manager in the email and followed the instructions outlined in the design brief.
 3. To complete the poster efficiently, I copied the required text using keyboard shortcuts (Ctrl + C and Ctrl + V). I then adjusted the font styles, sizes, and colours to improve readability and make the poster more visually appealing.
 4. I customised the design by changing the text colours and adding suitable stock images to support the content, as these were not included in the original brief.
- After receiving feedback from my teacher, I considered adding a coloured background. However, I decided to keep the background white because it improves readability and allows the important information to stand out more clearly.
5. Nishi's feedback suggested to add a colour page, but I believe it is better white so that the information remain clear and visible as I have used different fonts and colour themes
 6. I improved the overall presentation by using headings, bold and italic text, and consistent formatting throughout the poster. These changes made the layout more organised, easier to follow, and visually appealing
